

God's Living History and the New Age

An introduction to the Divine Principle.
Exploring the systematic evolution of human
spirituality from ancient roots to the urgent present.

The Original Blueprint of Goodness

God created the world to be a substantial object of His unique, eternal, and good nature. Humans were designed to be the ideal embodiment of goodness, making sin and suffering a contradiction to our very existence.

A Broken Mirror: The Reality of the Fall

Man lost his original value and fell into a state of separation from God. The reality of evil we see today is the result of this failure. We became substantial beings of sin, plummeting our spiritual and intellectual standards to zero.

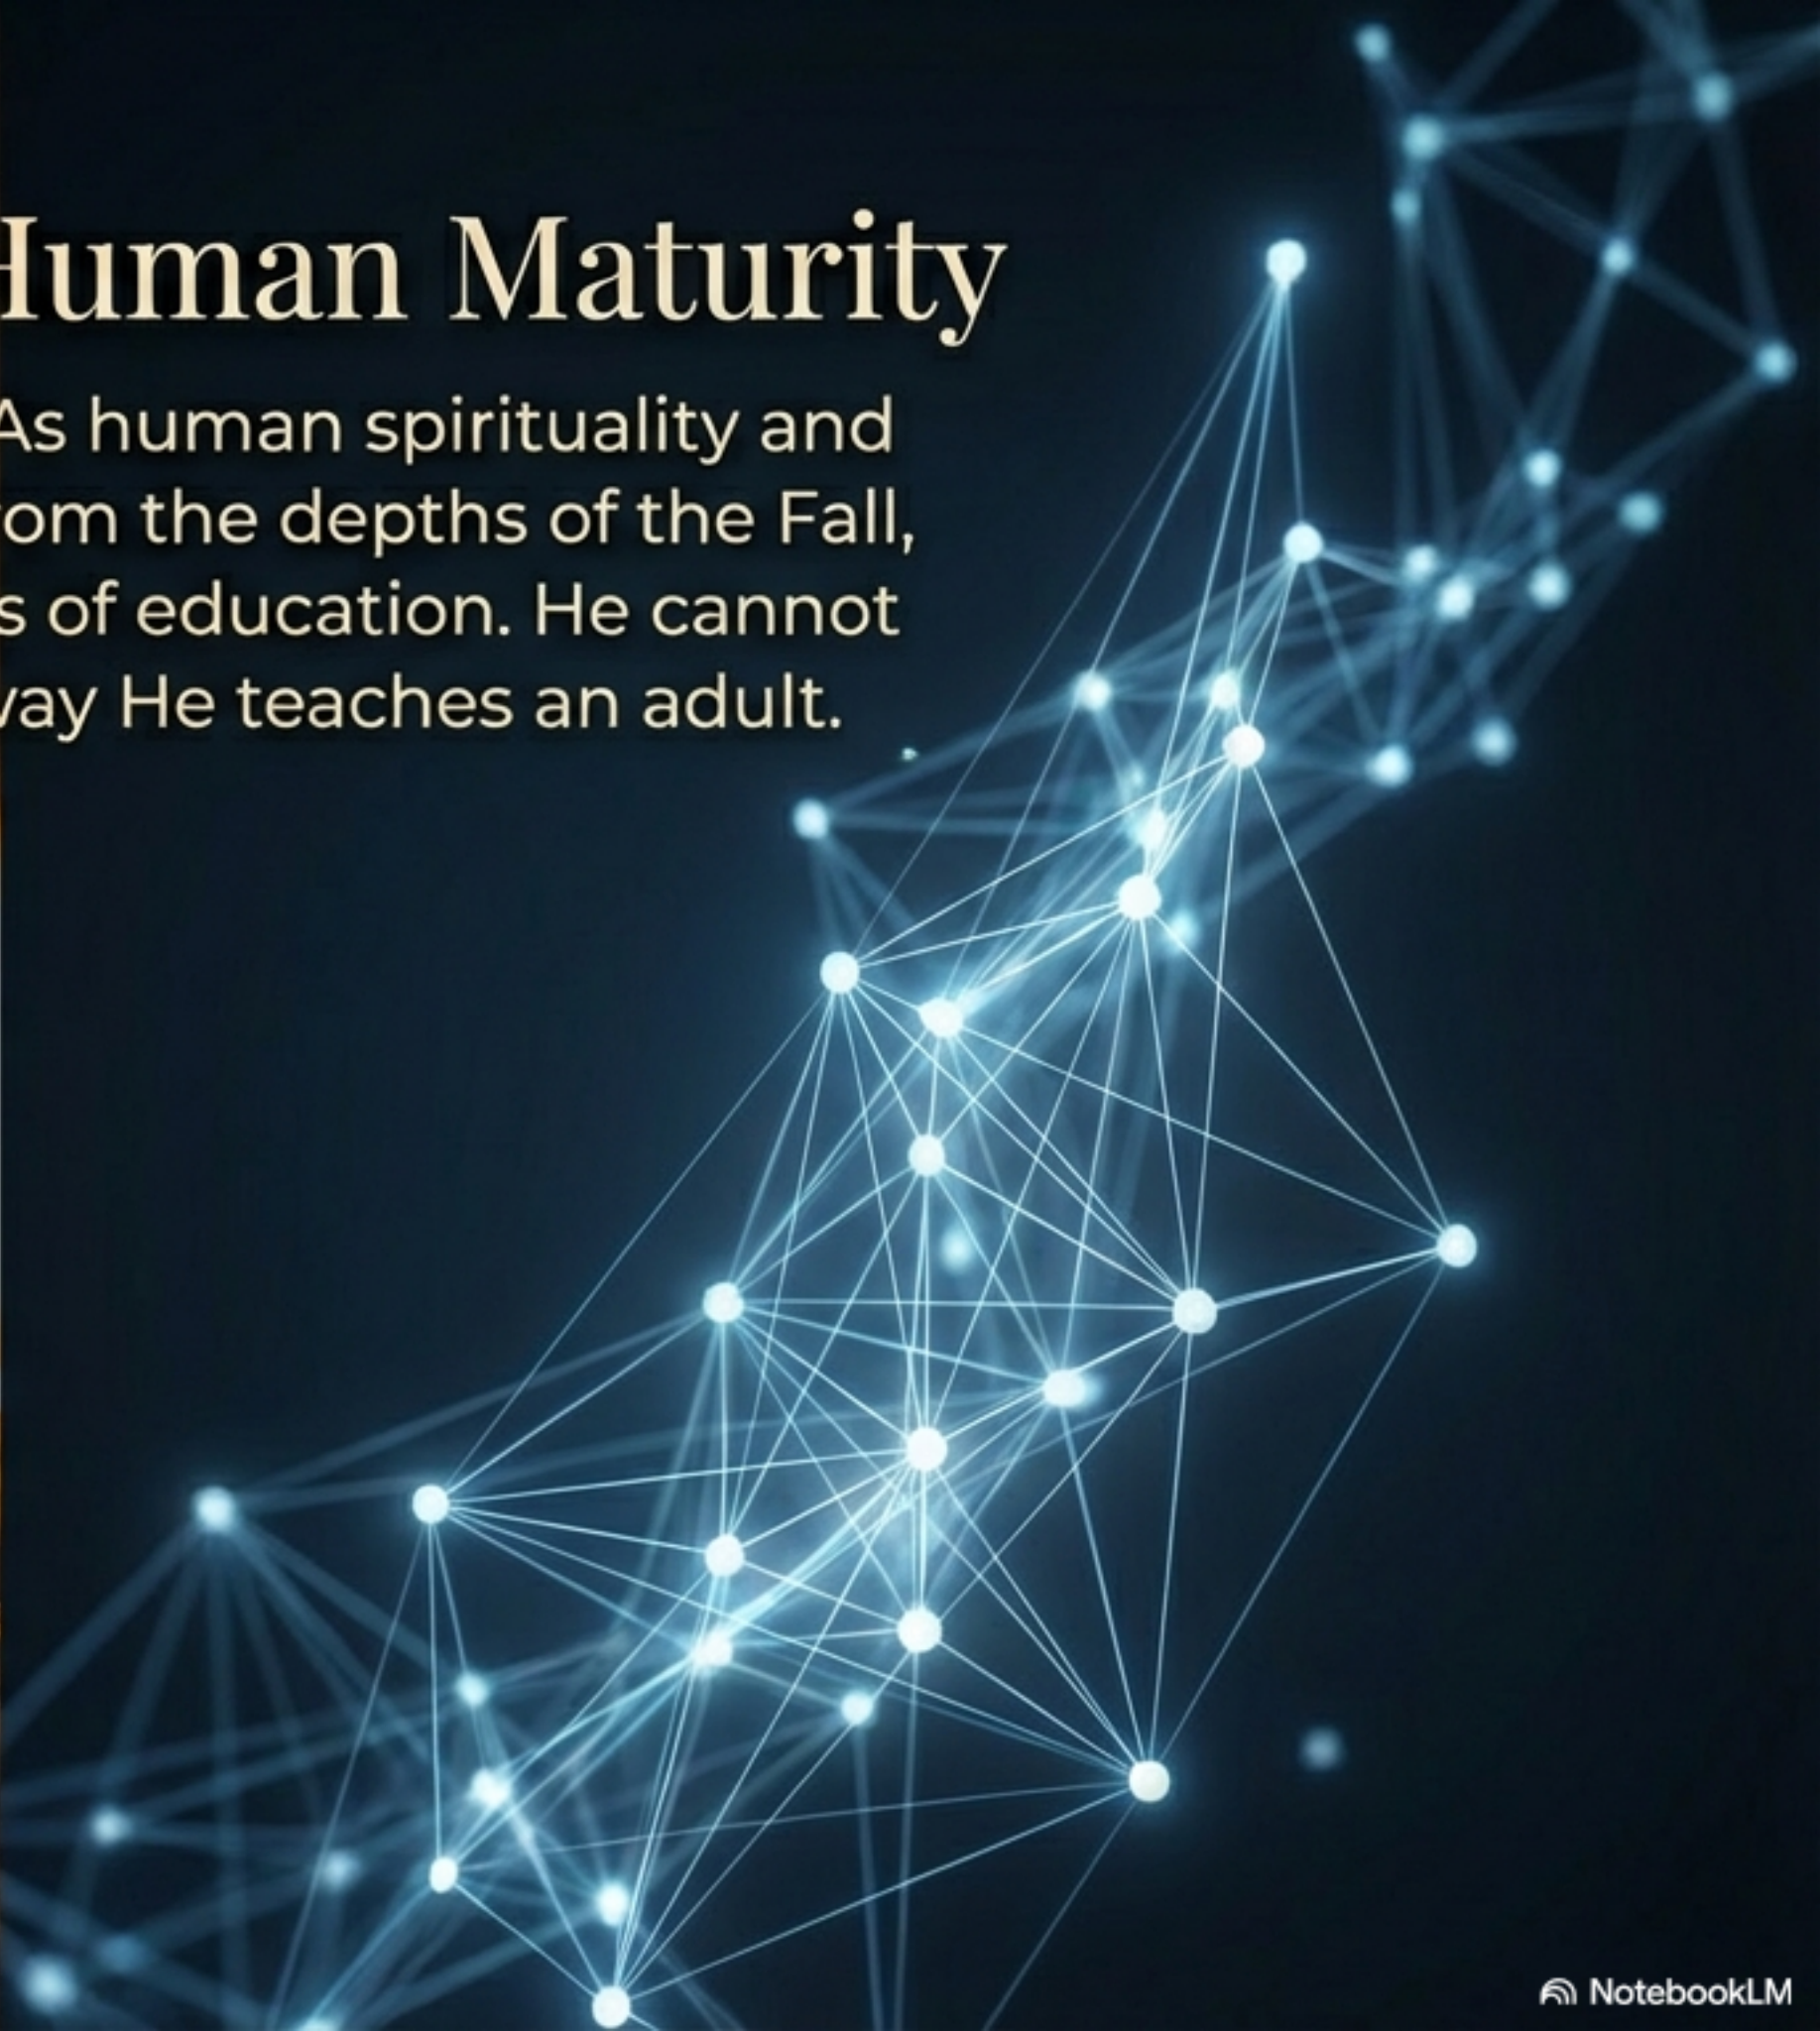

Salvation is Restoration

To save a sick man is to restore him to health. God's providence is the "Providence of Restoration"—a systematic work to return humanity to the original state intended before the Fall.

God Adapts to Human Maturity

God is alive and working. As human spirituality and intellect have developed from the depths of the Fall, God has revised His means of education. He cannot teach a child the same way He teaches an adult.

The Age of Offering

In the time of Abraham, human spirituality was extremely low. People were too immature for laws or complex truth. God could only lead them through the primitive method of sacrificial offerings.
(Montserrat)

The Age of Law

400 years later, humanity was ready for the next step. Through Moses, God did not repeat the method of simple sacrifice but introduced the Law and Commandments. A higher method for a more developed people.

A cinematic photograph of Jesus, played by Chiwetel Ejiofor, sitting on a rock in the foreground. He has dark, wavy hair and a beard, and is wearing a white robe with a brown sash. He is looking directly at the camera with a calm, steady gaze. In the background, a large crowd of people, mostly men and women in traditional Middle Eastern attire like head coverings and robes, are seated on the ground, looking towards him. The setting is outdoors in a dry, hilly landscape under bright, natural light.

The Age of Gospel

1,600 years after Moses, God sent the Gospel through Jesus. It was a new dispensation, adequate to the spirituality of that age, intended to bring people closer to God's heart than the Law ever could. (Montserrat)

The Tragedy of Fossils

The Jewish people devoutly believed in God but rejected Jesus. Why?

They clung to the old 'Age of Law' and could not accept the new 'Age of Gospel.'

God desires men who are alive, not spiritual fossils bound to the past.

New Wine Requires Fresh Wineskins

Jesus taught that we must make ourselves new to receive words. Conventional doctrine can blind us to fresh revelation. As Jesus said, "New wine must be put into fresh wineskins" (Luke 5:38).

The Modern Spiritual Dilemma

Who is God's object today? It is modern man. Yet, churches have lost the spiritual power to influence this age or hold the youth. We are facing a crisis of spiritual silence.

Prophecies of a New Expression

God must break the silence. Jesus promised, "I have yet many things to say to you, but you cannot bear them now" (John 16:12). A new expression of truth is needed to guide modern intellect and solve modern problems.

The Divine Principle

This is not a repetition of past sermons or human philosophy. It is a new revelation given to Reverend Sun Myung Moon—clarifying the Principle of Creation, the Fall, and Restoration to the highest degree.

Vitality for the Global Youth

Why are youth from 120 nations following this?
It provides new life, new meaning, and new enthusiasm.
God is speaking quietly in the East, but it is resonating globally.

God Has Broken the Silence

The church cannot continue as it is. Now is the time for God to give new direction. Let us consider the Principle of Creation, Fall, and Restoration with an open mind.
