

The Oldest Cold Case in Human History

Investigation: The Origin of Human Suffering

THE SYMPTOM

History is an endless cycle of conflict. We desire peace, yet we inherit tragedy.

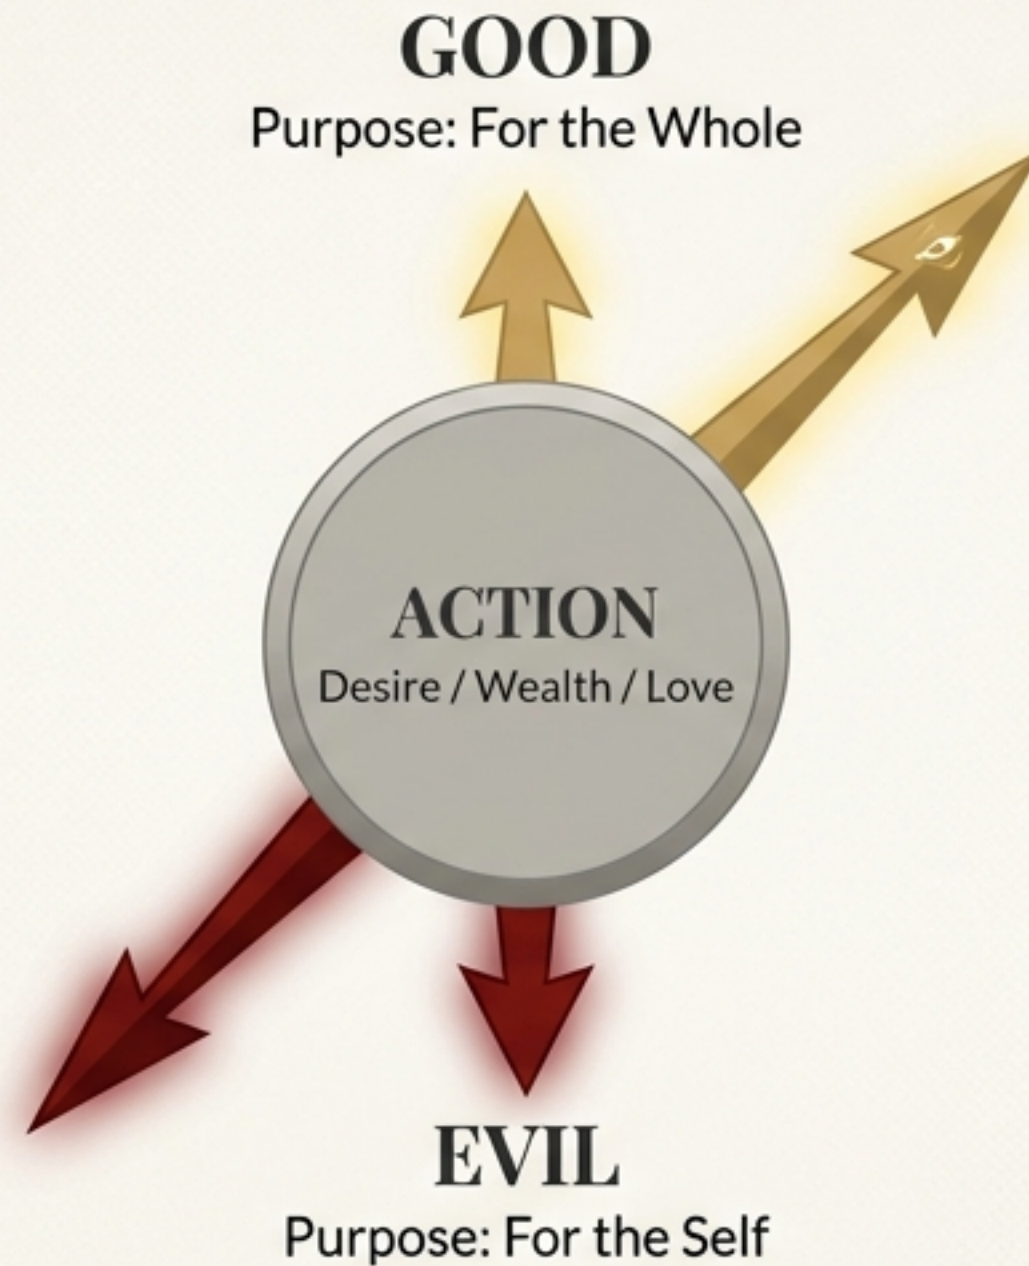

THE QUESTION

Why does the Original Mind battle an unseen force driving us toward evil?

THE OBJECTIVE

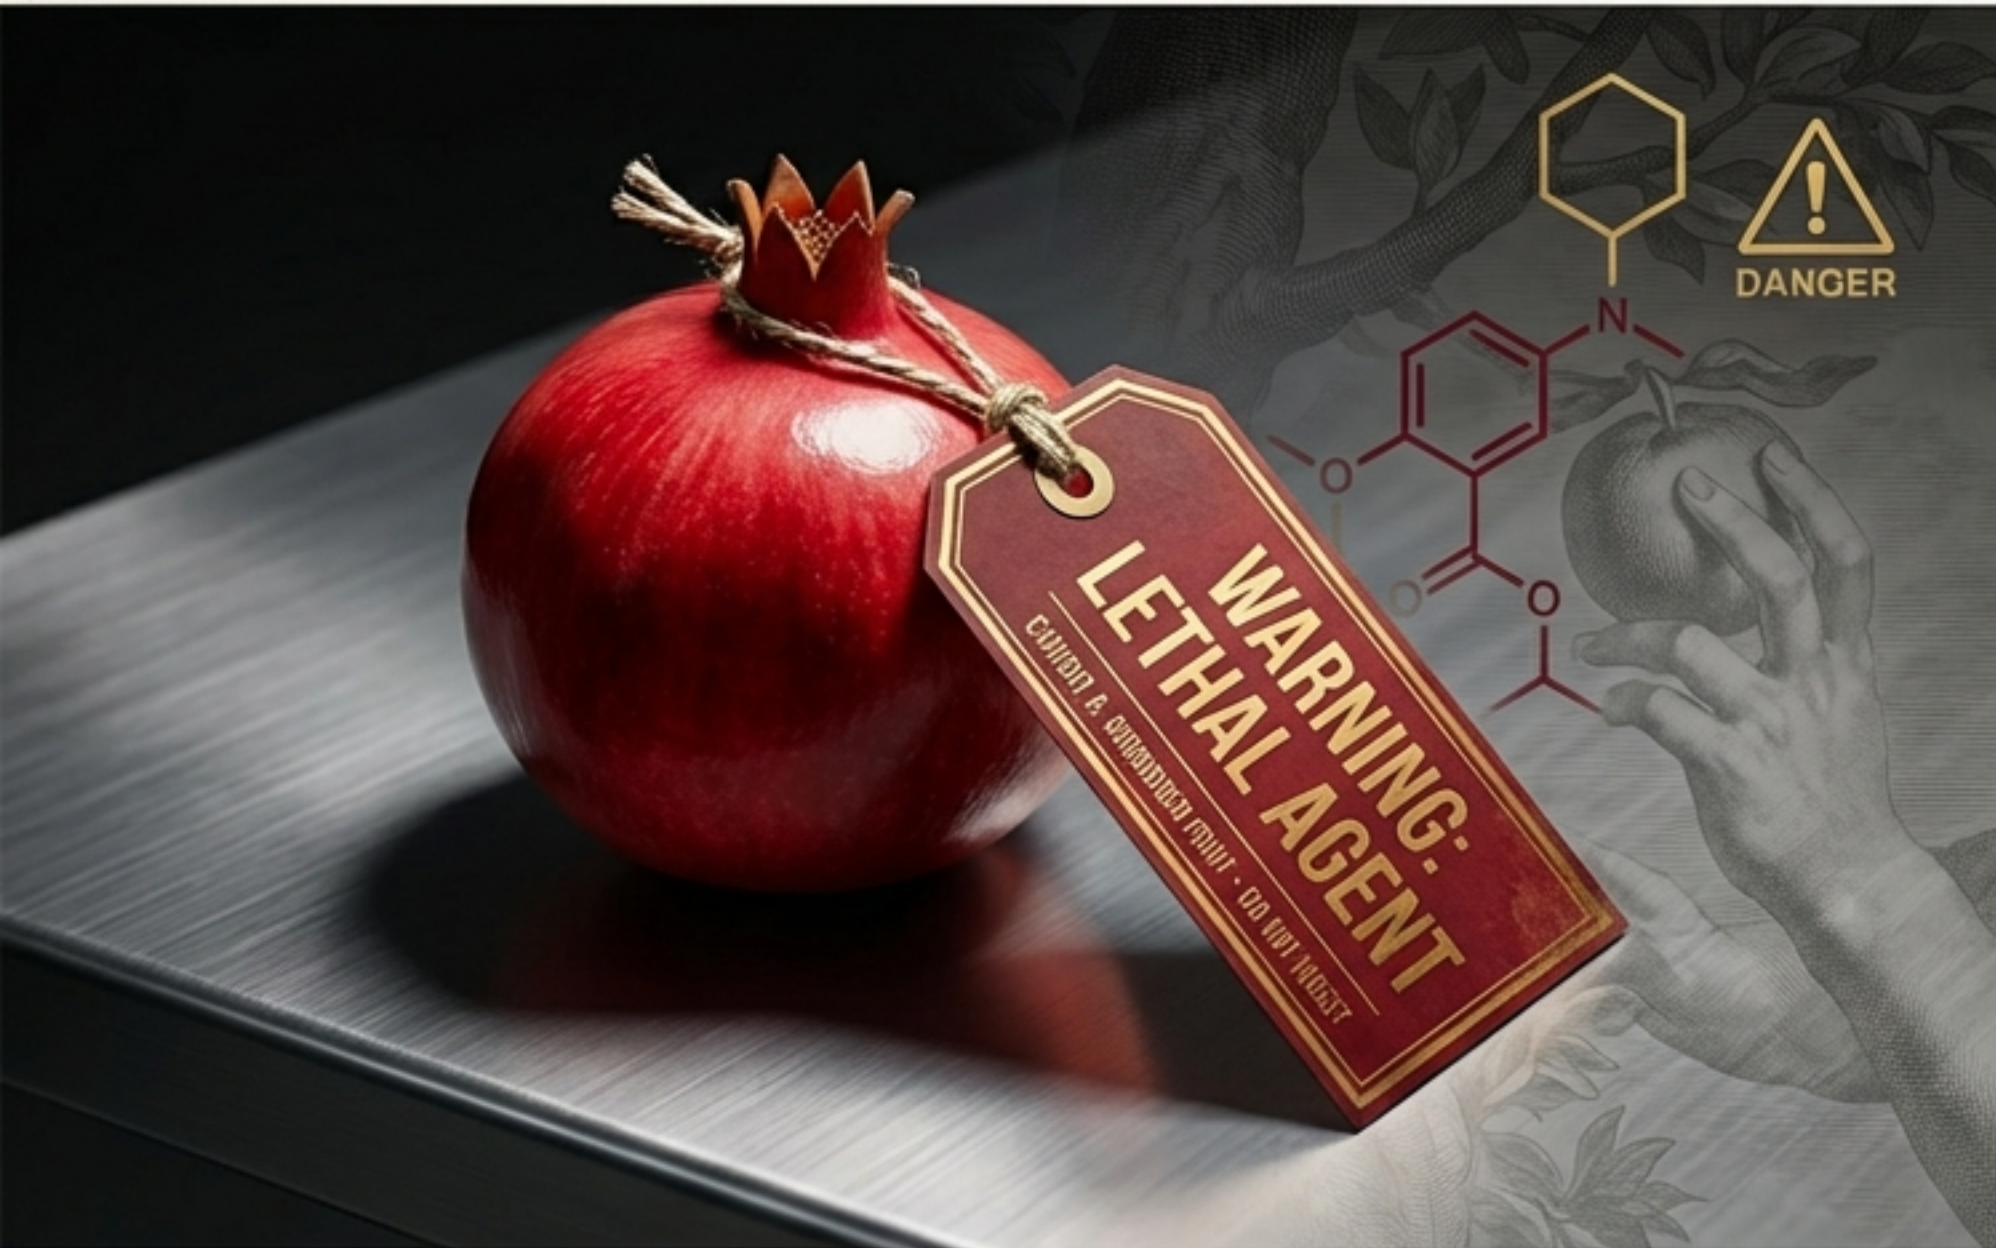

To fix the branches (society), we must expose the root.

Direction Determines Value

Good and Evil are defined not by the form of the action, but by the direction of its purpose. Even 'Desire' is God-given; Evil is simply desire misdirected.

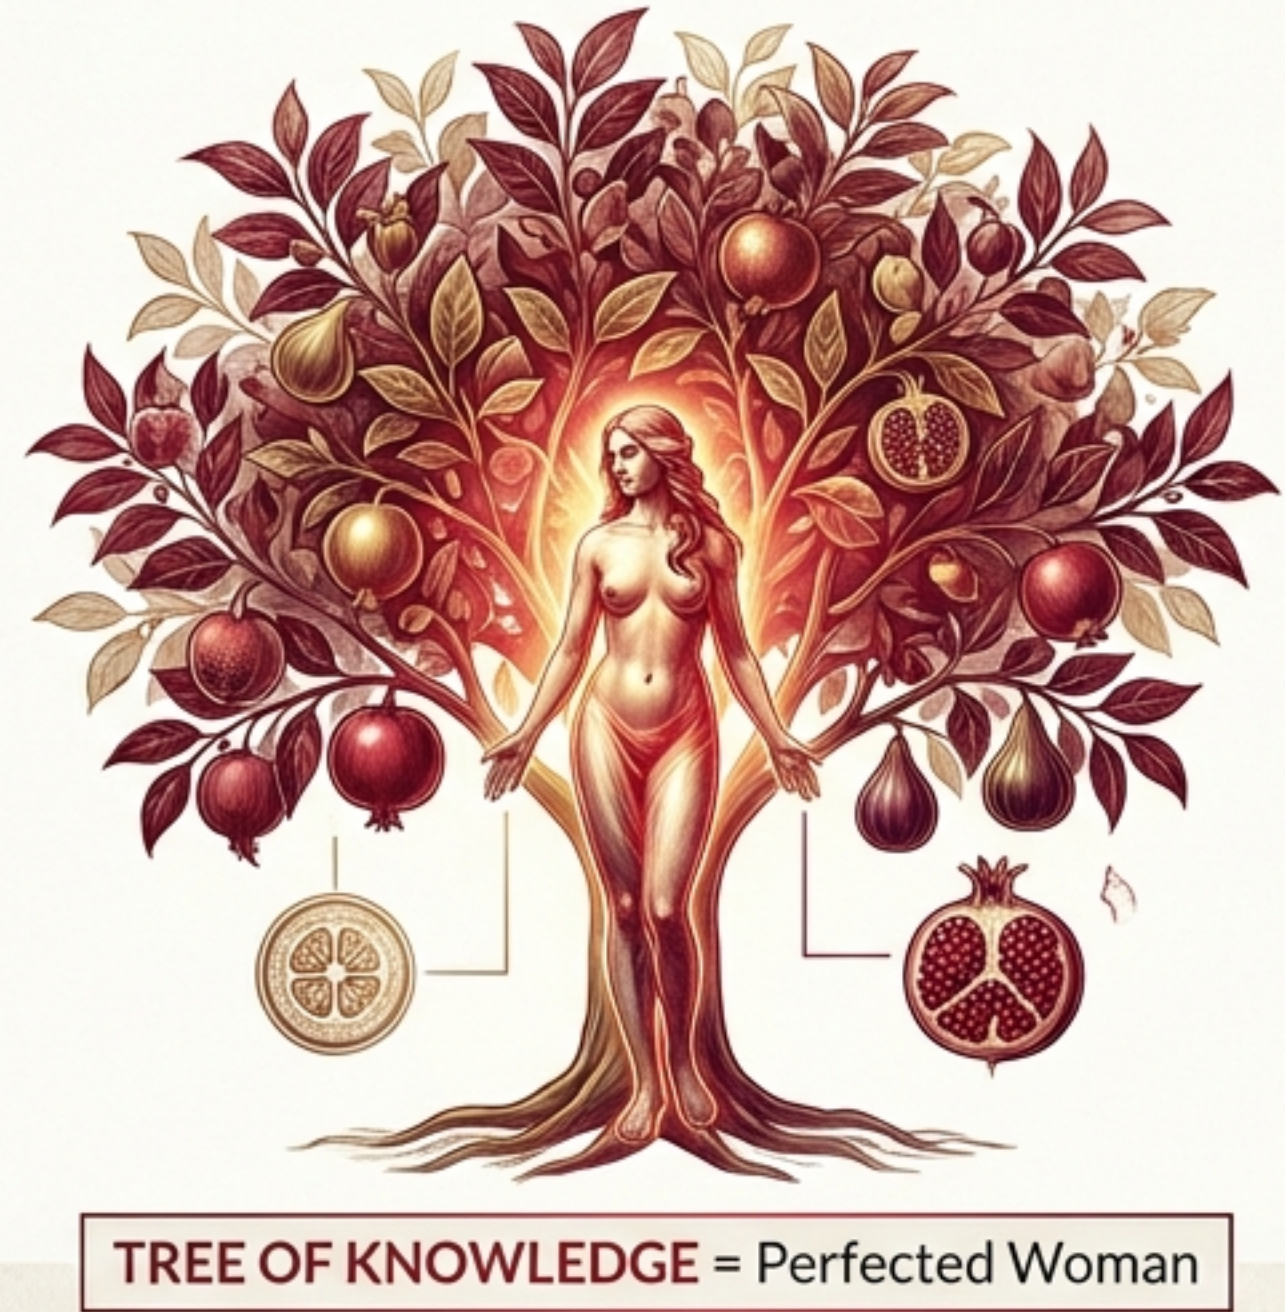

The Anomalies in the Official Record

- **The Logic Gap:** Would a loving Parent place a lethal instrument within reach of a child?
- 🕯️ **The Test:** Is it mercy to test obedience with death?
- ⋯ **The Deduction:** If the fruit is not food, it must be a symbol.

"Not what goes into the mouth defiles a man..." — Matt. 15:11

Decoding the Symbols: The Two Trees

The story is not about botany. It is about human maturity.
The Garden was a training ground for the first ancestors.

Unmasking the Serpent

Identity: A Spiritual Being (Angel).

Status: Servant who left his position.

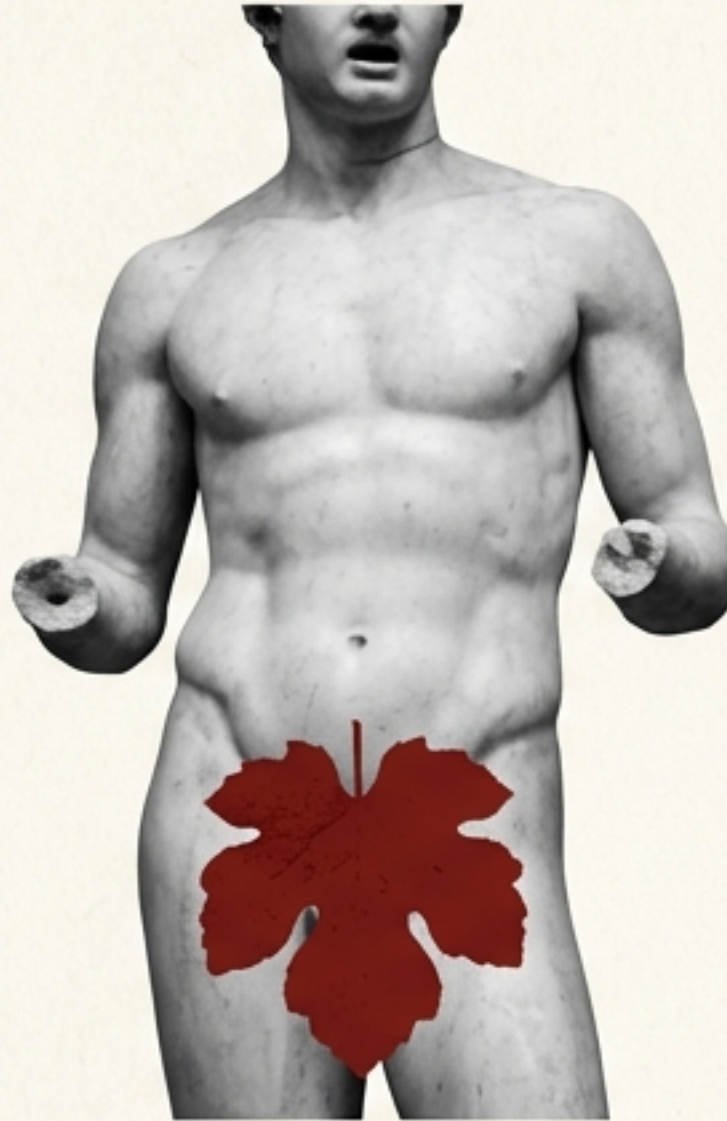

Profile: Converses with humans, knew God's will.

**“The ancient serpent... who is called the Devil and Satan...
thrown down to the earth.” — Rev. 12:9**

Reconstructing the Crime Scene

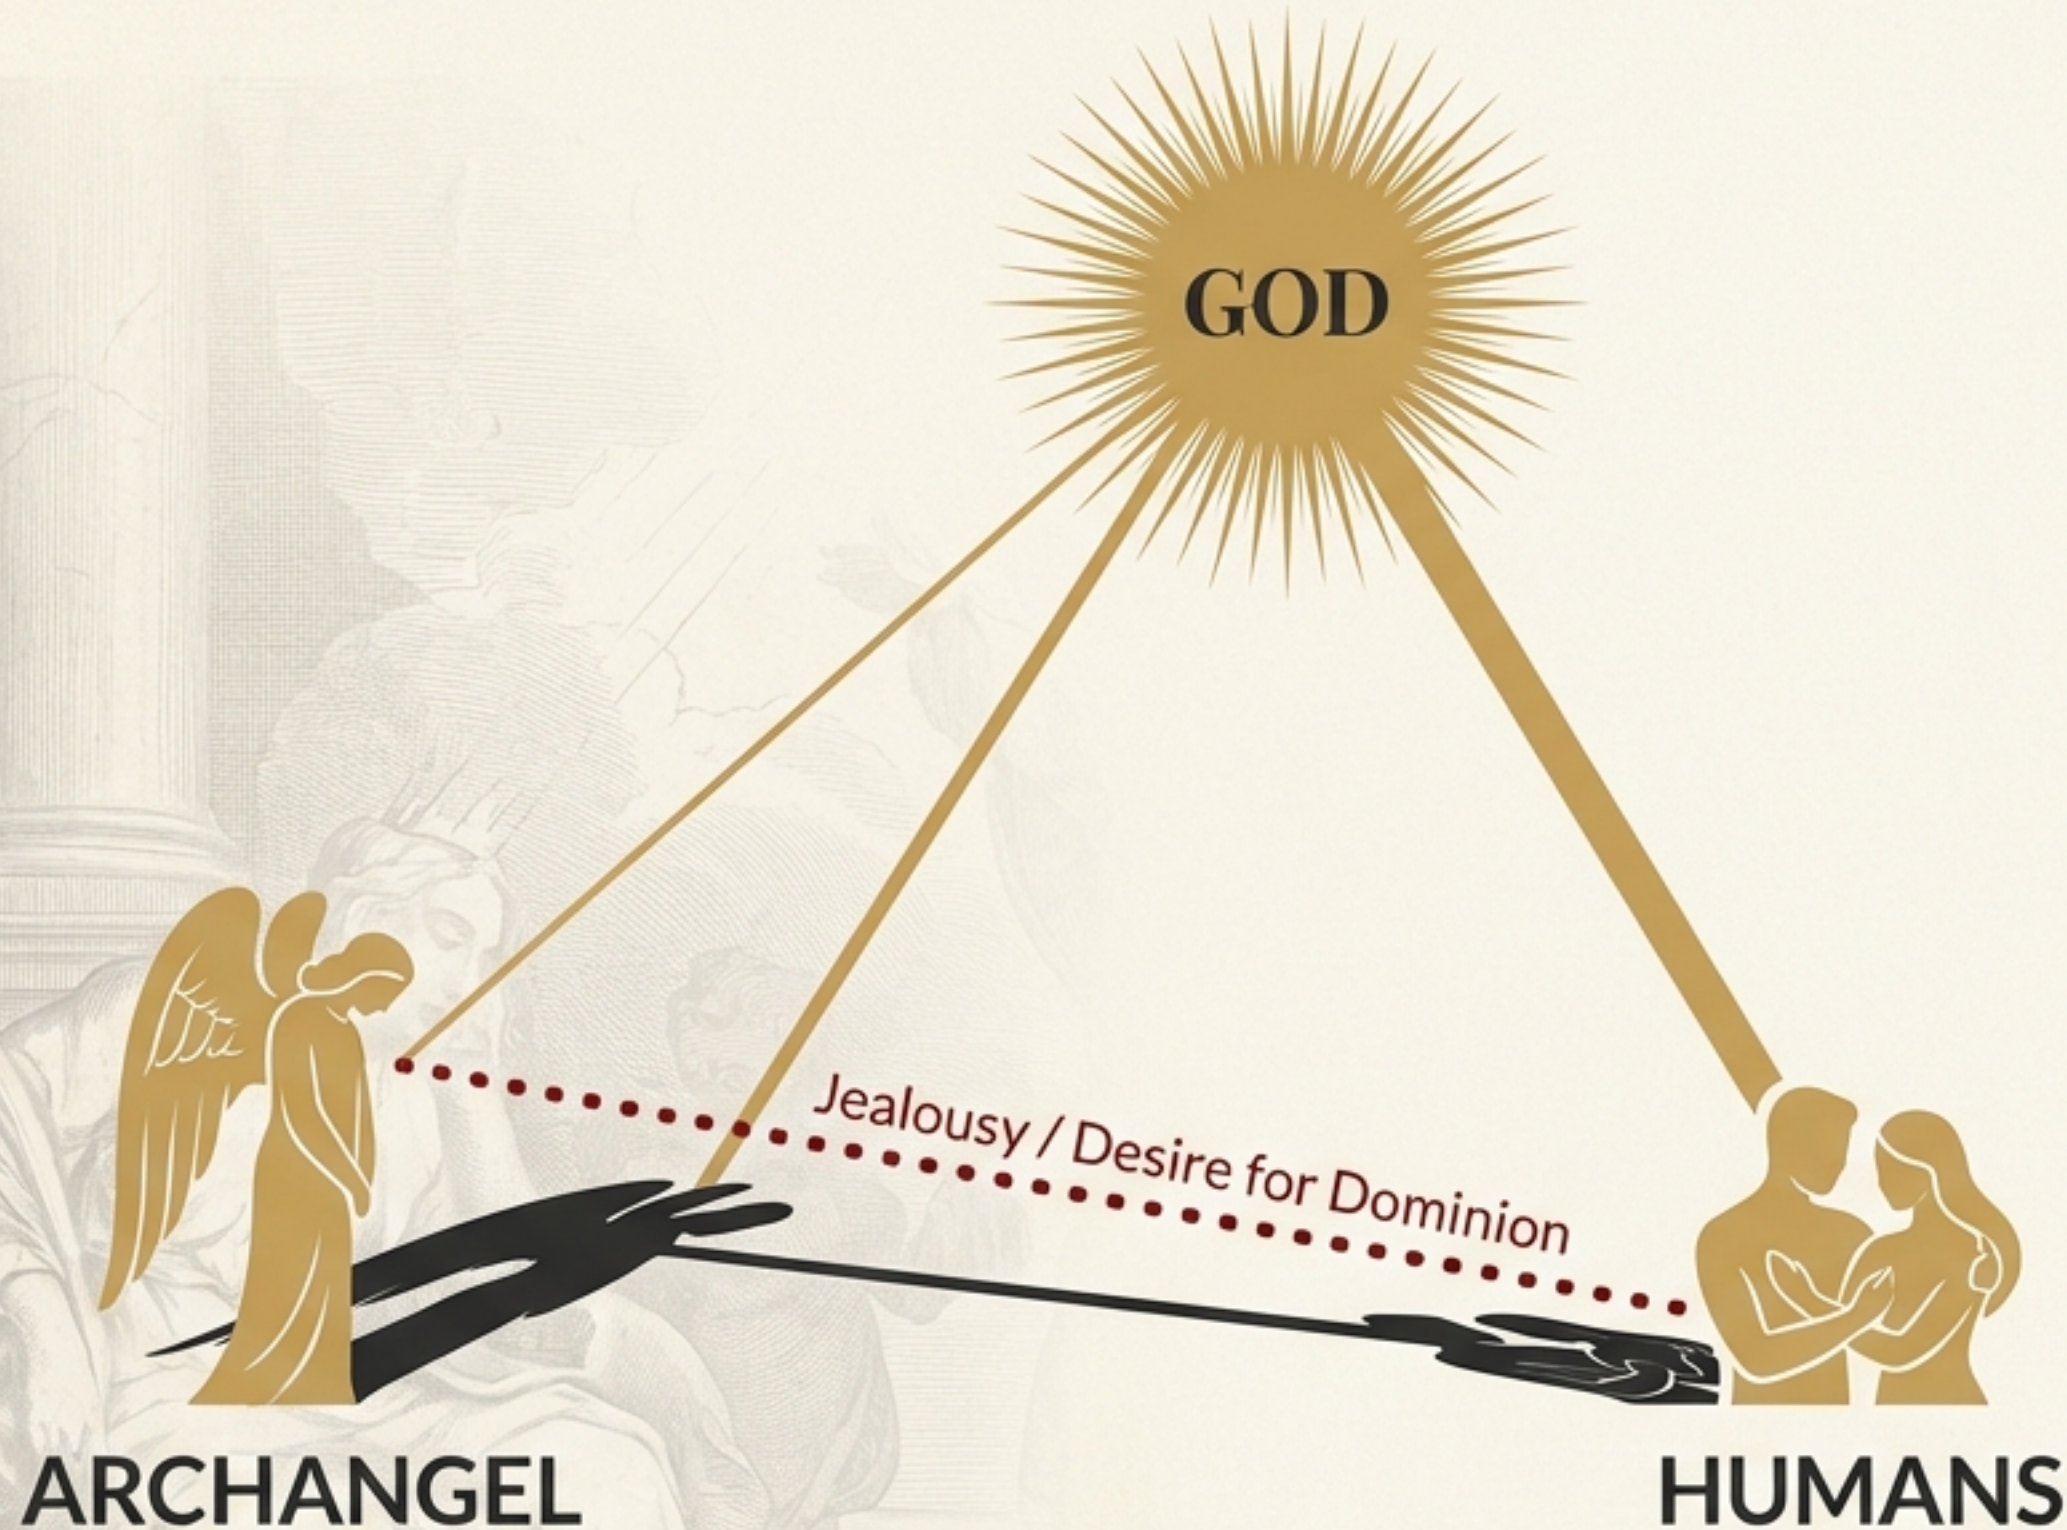

The Clue: They covered their lower parts, not their mouths.

The Principle: Human nature conceals the part involved in the transgression.

The Verdict: The 'Fruit' was illicit love.
A sexual violation of God's order.

The Motive: Envy and Displaced Desire

The Trigger: A perceived lack of love compared to God's children.

The Psychology: Envy is a byproduct of Intellect and Desire.

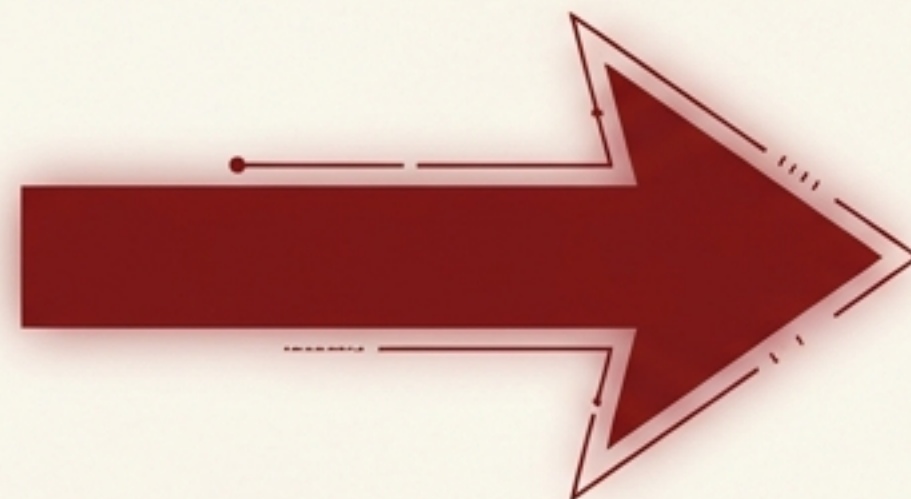

The Act: Leaving the position of servant to seize the position of spouse.

The Sequence of Events: A Two-Stage Fall

SPIRITUAL FALL

Eve & Lucifer
Result: Fear, Guilt,
Premature Wisdom.

PHYSICAL FALL

Eve & Adam
Result: Premature union based on
fear, dragging Adam into the fall.

*This is a warning of the risk's further
demonstration of the Revolution
to the extent of the Hierarchy.*

The Result: A Change of Lineage

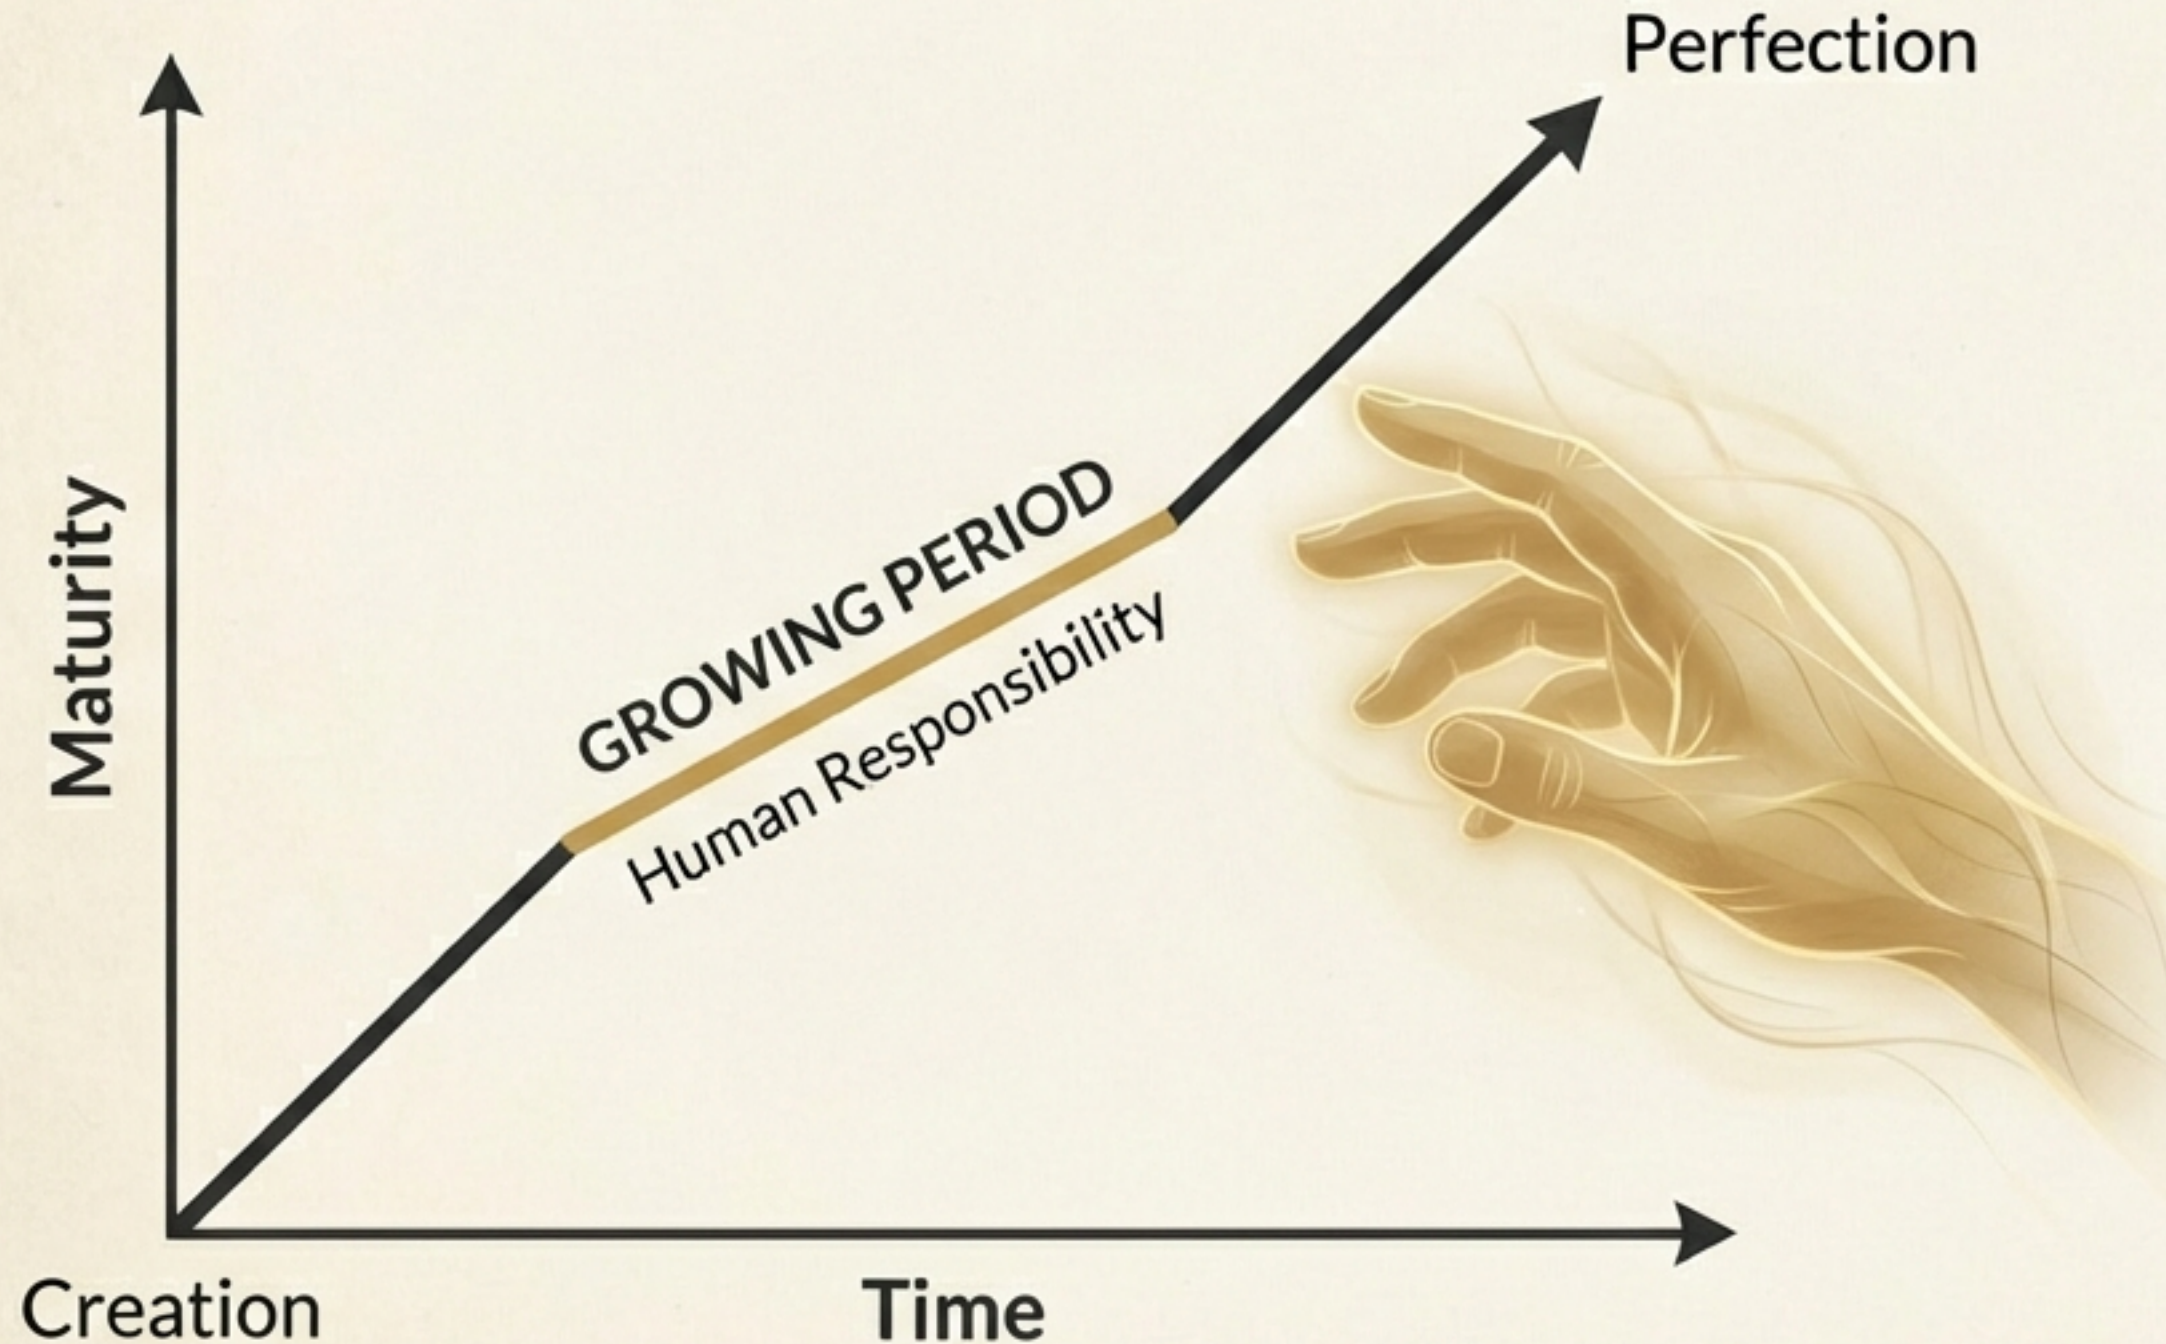

The Mechanic: Why Love Overpowered Principle

- **The Design:** God governs through Love. Thus, Love > Principle.
- **The Vulnerability:** During immaturity, misdirected love can override the conscience.
- **The Commandment:** “Do not eat” was a protective rail meant to hold until maturity.

The Silence of the Judge: Why God Did Not Intervene

- **To Preserve Human Responsibility:**
Perfection is a joint effort.
- **To Grant Creatorship:**
We earn dominion only by fulfilling our own growth.

The Sole Creator

PRINCIPLED EXISTENCE

God cannot recognize Sin.

If God intervened in the Fall,
He would grant it **Principled Value**.

Intervention would make **Satan a Co-Creator**.

UNPRINCIPLED REALITY

The Verdict: A World Under False Sovereignty

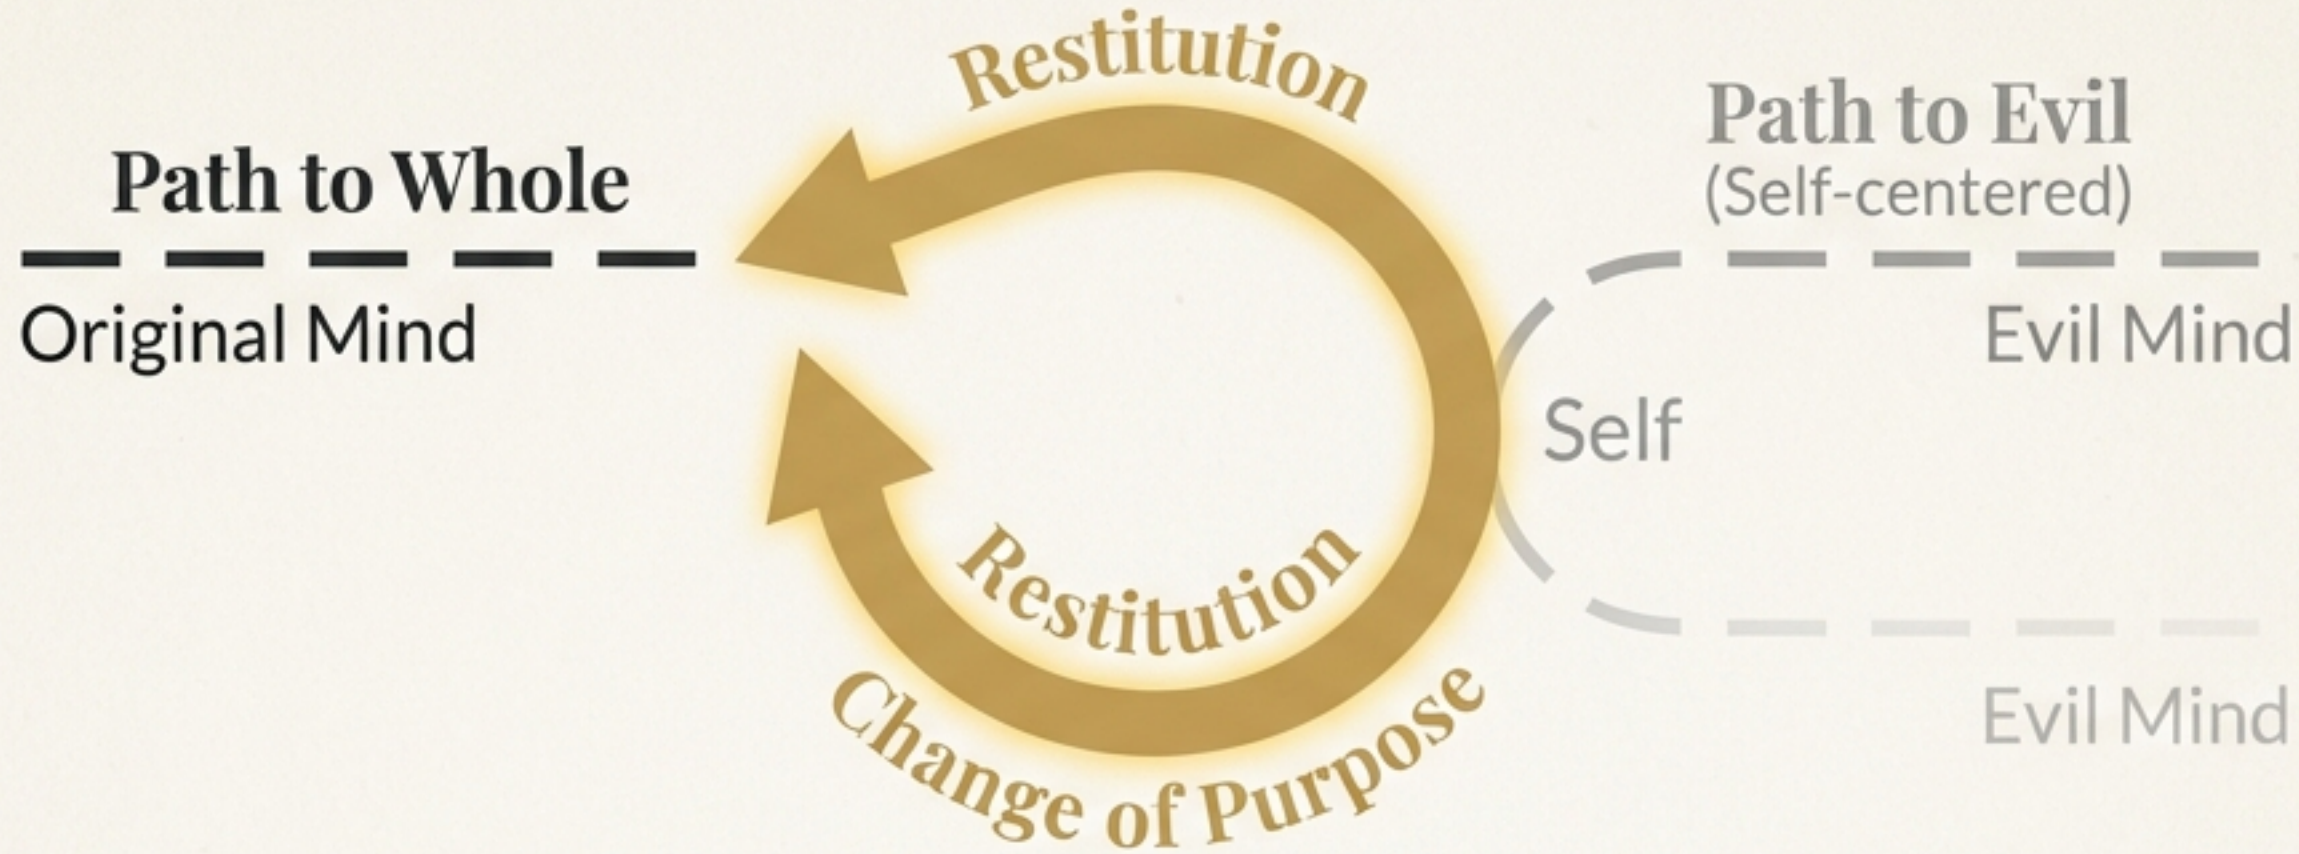

Current State: **Satan** is the “ruler of this world” (2 Cor. 4:4).

The Internal Conflict: **Original Mind** vs. **Evil Mind**.

Characteristics of Fallen Nature:

1. Failing to see from God’s viewpoint.
2. Leaving one’s proper position.
3. Reversing dominion.
4. Multiplying evil.

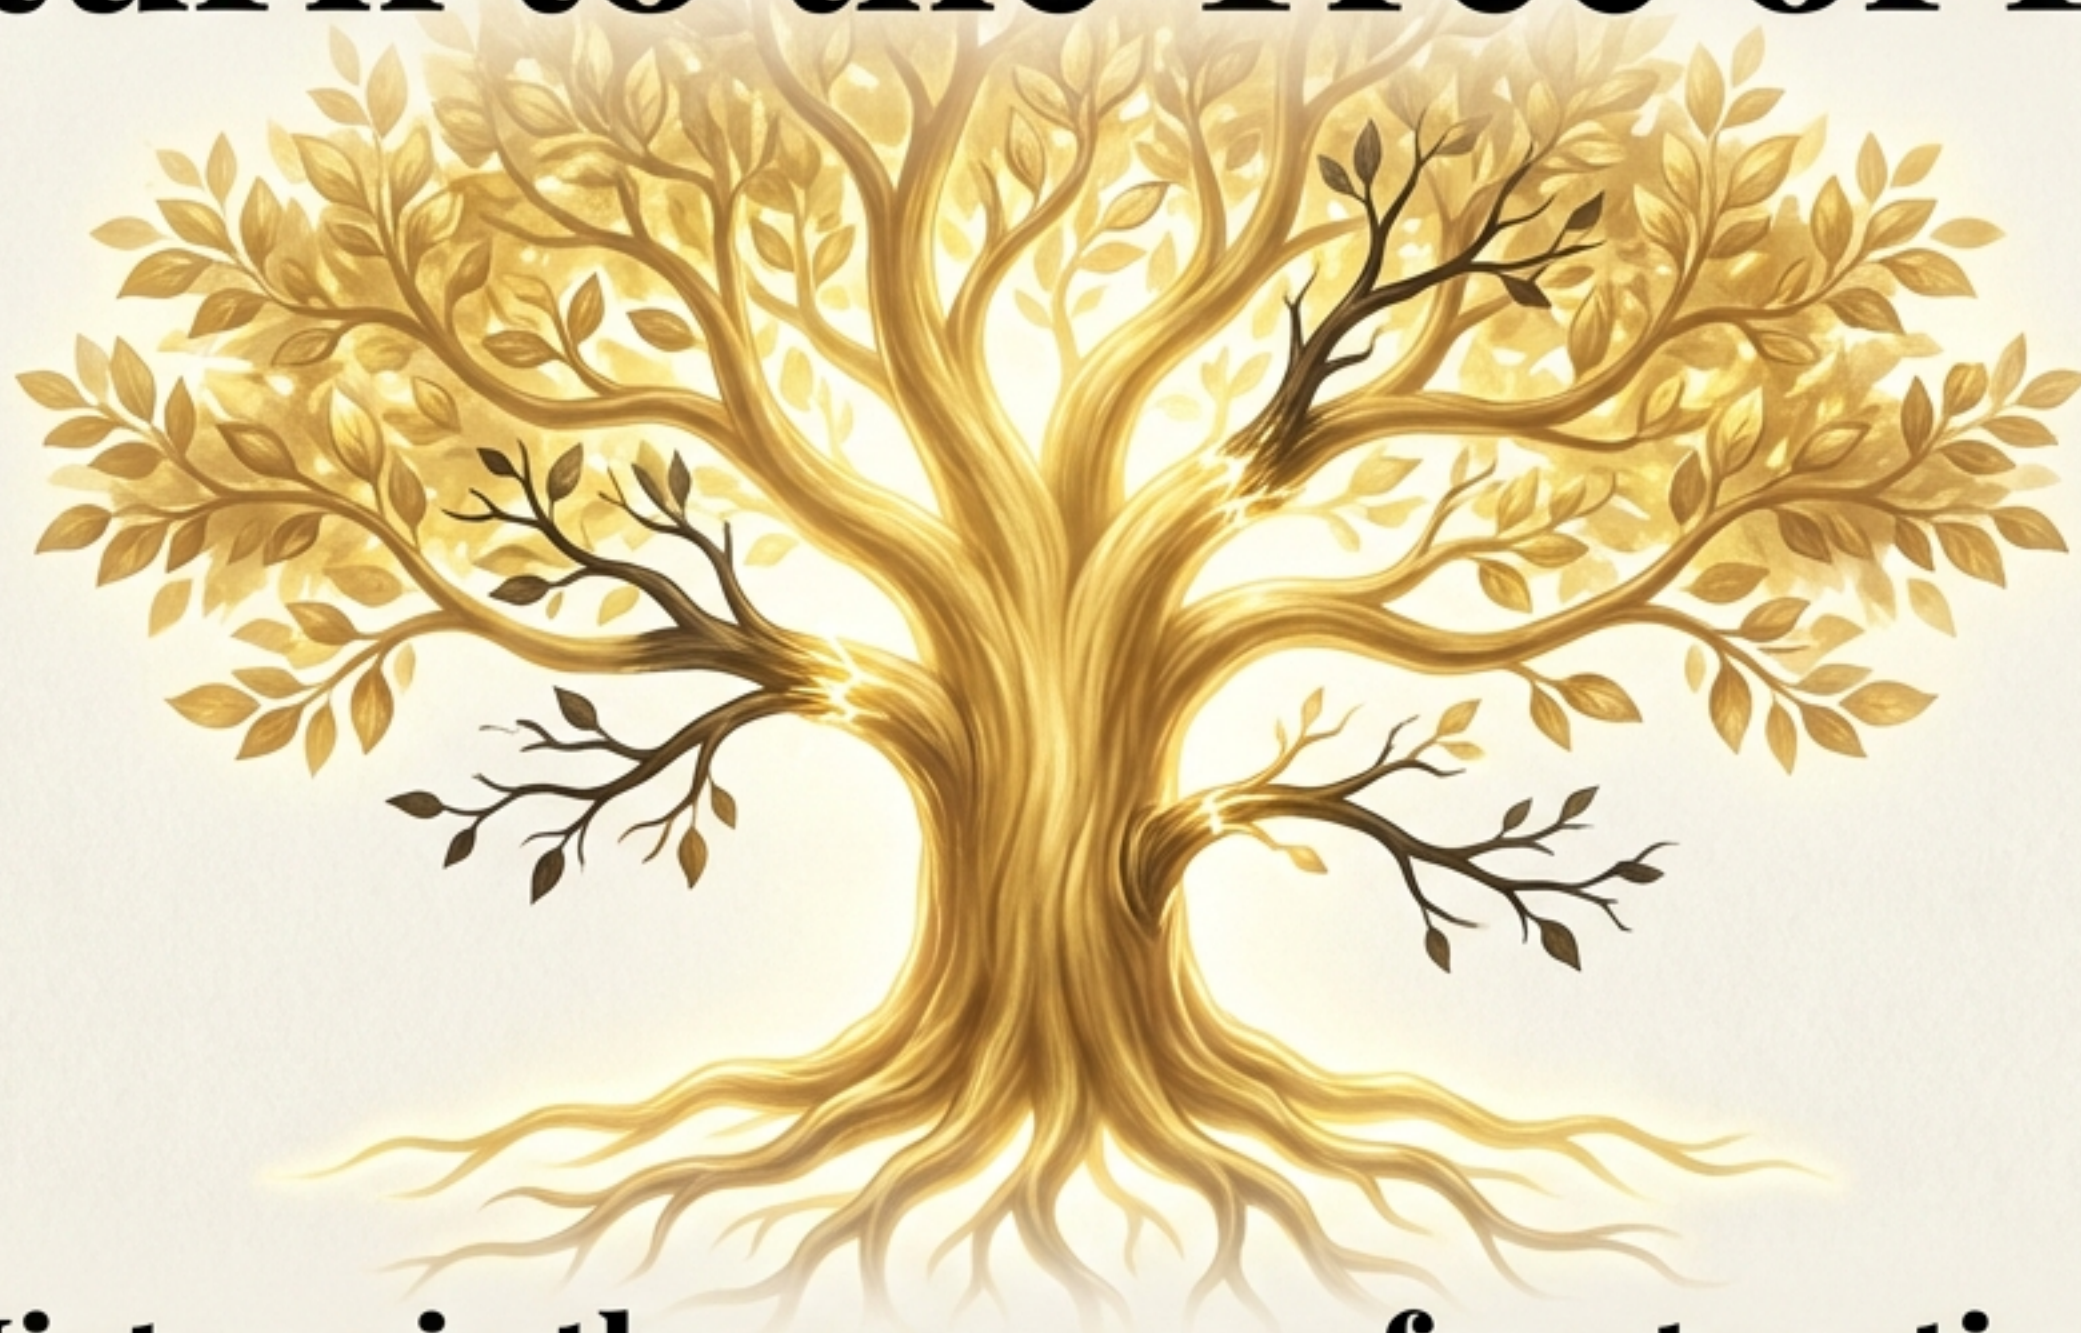

The Solution: Restoration Through Purpose

SCIENCE: Destruction -> Healing
WEALTH: Hoarding -> Distribution
LOVE: Desire -> Service

We must **reverse the Fall** by shifting the purpose of every action back to the Ideal.

Return to the Tree of Life

History is the process of restoration.

The investigation is concluded. The work of uprooting the original sin begins with us.
