

The Blueprint of Existence

Decoding the Divine Mechanics of Creation and the Human Soul

FATHOMING THE INVISIBLE FIRST CAUSE

“Ever since the creation of the world his invisible nature... has been clearly perceived in the things that have been made.”

—Romans 1:20

Problems concerning human life and the universe cannot be solved without first understanding the ultimate causal reality: the nature of God.

THE UNIVERSAL DUALITY OF YANG AND YIN

Every entity in the natural world requires a reciprocal relationship between masculine (yang) and feminine (yin) characteristics to exist. From the positive and negative charges of subatomic particles to the stamen and pistil of plants, existence depends on harmonious pairing.

INTERNAL NATURE AND EXTERNAL FORM

Beyond yang and yin is a more fundamental duality: an invisible inner quality (internal nature) and a visible outer shape (external form).

The internal is causal and stands as the subject partner. The external is resultant and stands as the object partner.

The human body is the visible reflection of the invisible human mind.

THE DUAL CHARACTERISTICS OF THE CREATOR

As the First Cause of the universe, God exists as the harmonious Subject Partner. God embodies Original Internal Nature and Original External Form.

Simultaneously, God is the perfect, harmonious union of Original Masculinity and Original Femininity.

UNIVERSAL PRIME ENERGY AND GIVE AND TAKE ACTION

Universal Prime Energy is the eternal, absolute force of the Creator. It prompts the subject and object elements of every entity to form a common base and initiate Give and Take Action. This interaction generates all the forces an entity needs for existence, multiplication, and action.

THE MECHANICS OF MANIFESTATION

Origin-Division-Union Action is the fundamental process of creation.

Out of God (the Origin), two entities are separately manifested (Division) and reunited in harmonious oneness (Union).

This action fulfills the Three Object Purpose, where each position enters into reciprocal give and take with the others.

THE MECHANICS OF MANIFESTATION

When the Origin, the Subject Partner, the Object Partner, and their Union fulfill the Three Object Purpose, the Four Position Foundation is established.

It is the fundamental foundation of goodness and the realization of God's purpose of creation.

The ultimate manifestation: God, Husband, Wife, and Child.

THE SPHERICAL MOVEMENT OF THE UNIVERSE

Entities that complete the Four Position Foundation move in spherical paths, creating three-dimensional existence.

Held in balance by giving (centrifugal) and receiving (centripetal) forces, object partners revolve around subject partners.

The ultimate center of all spherical movements in the universe is God.

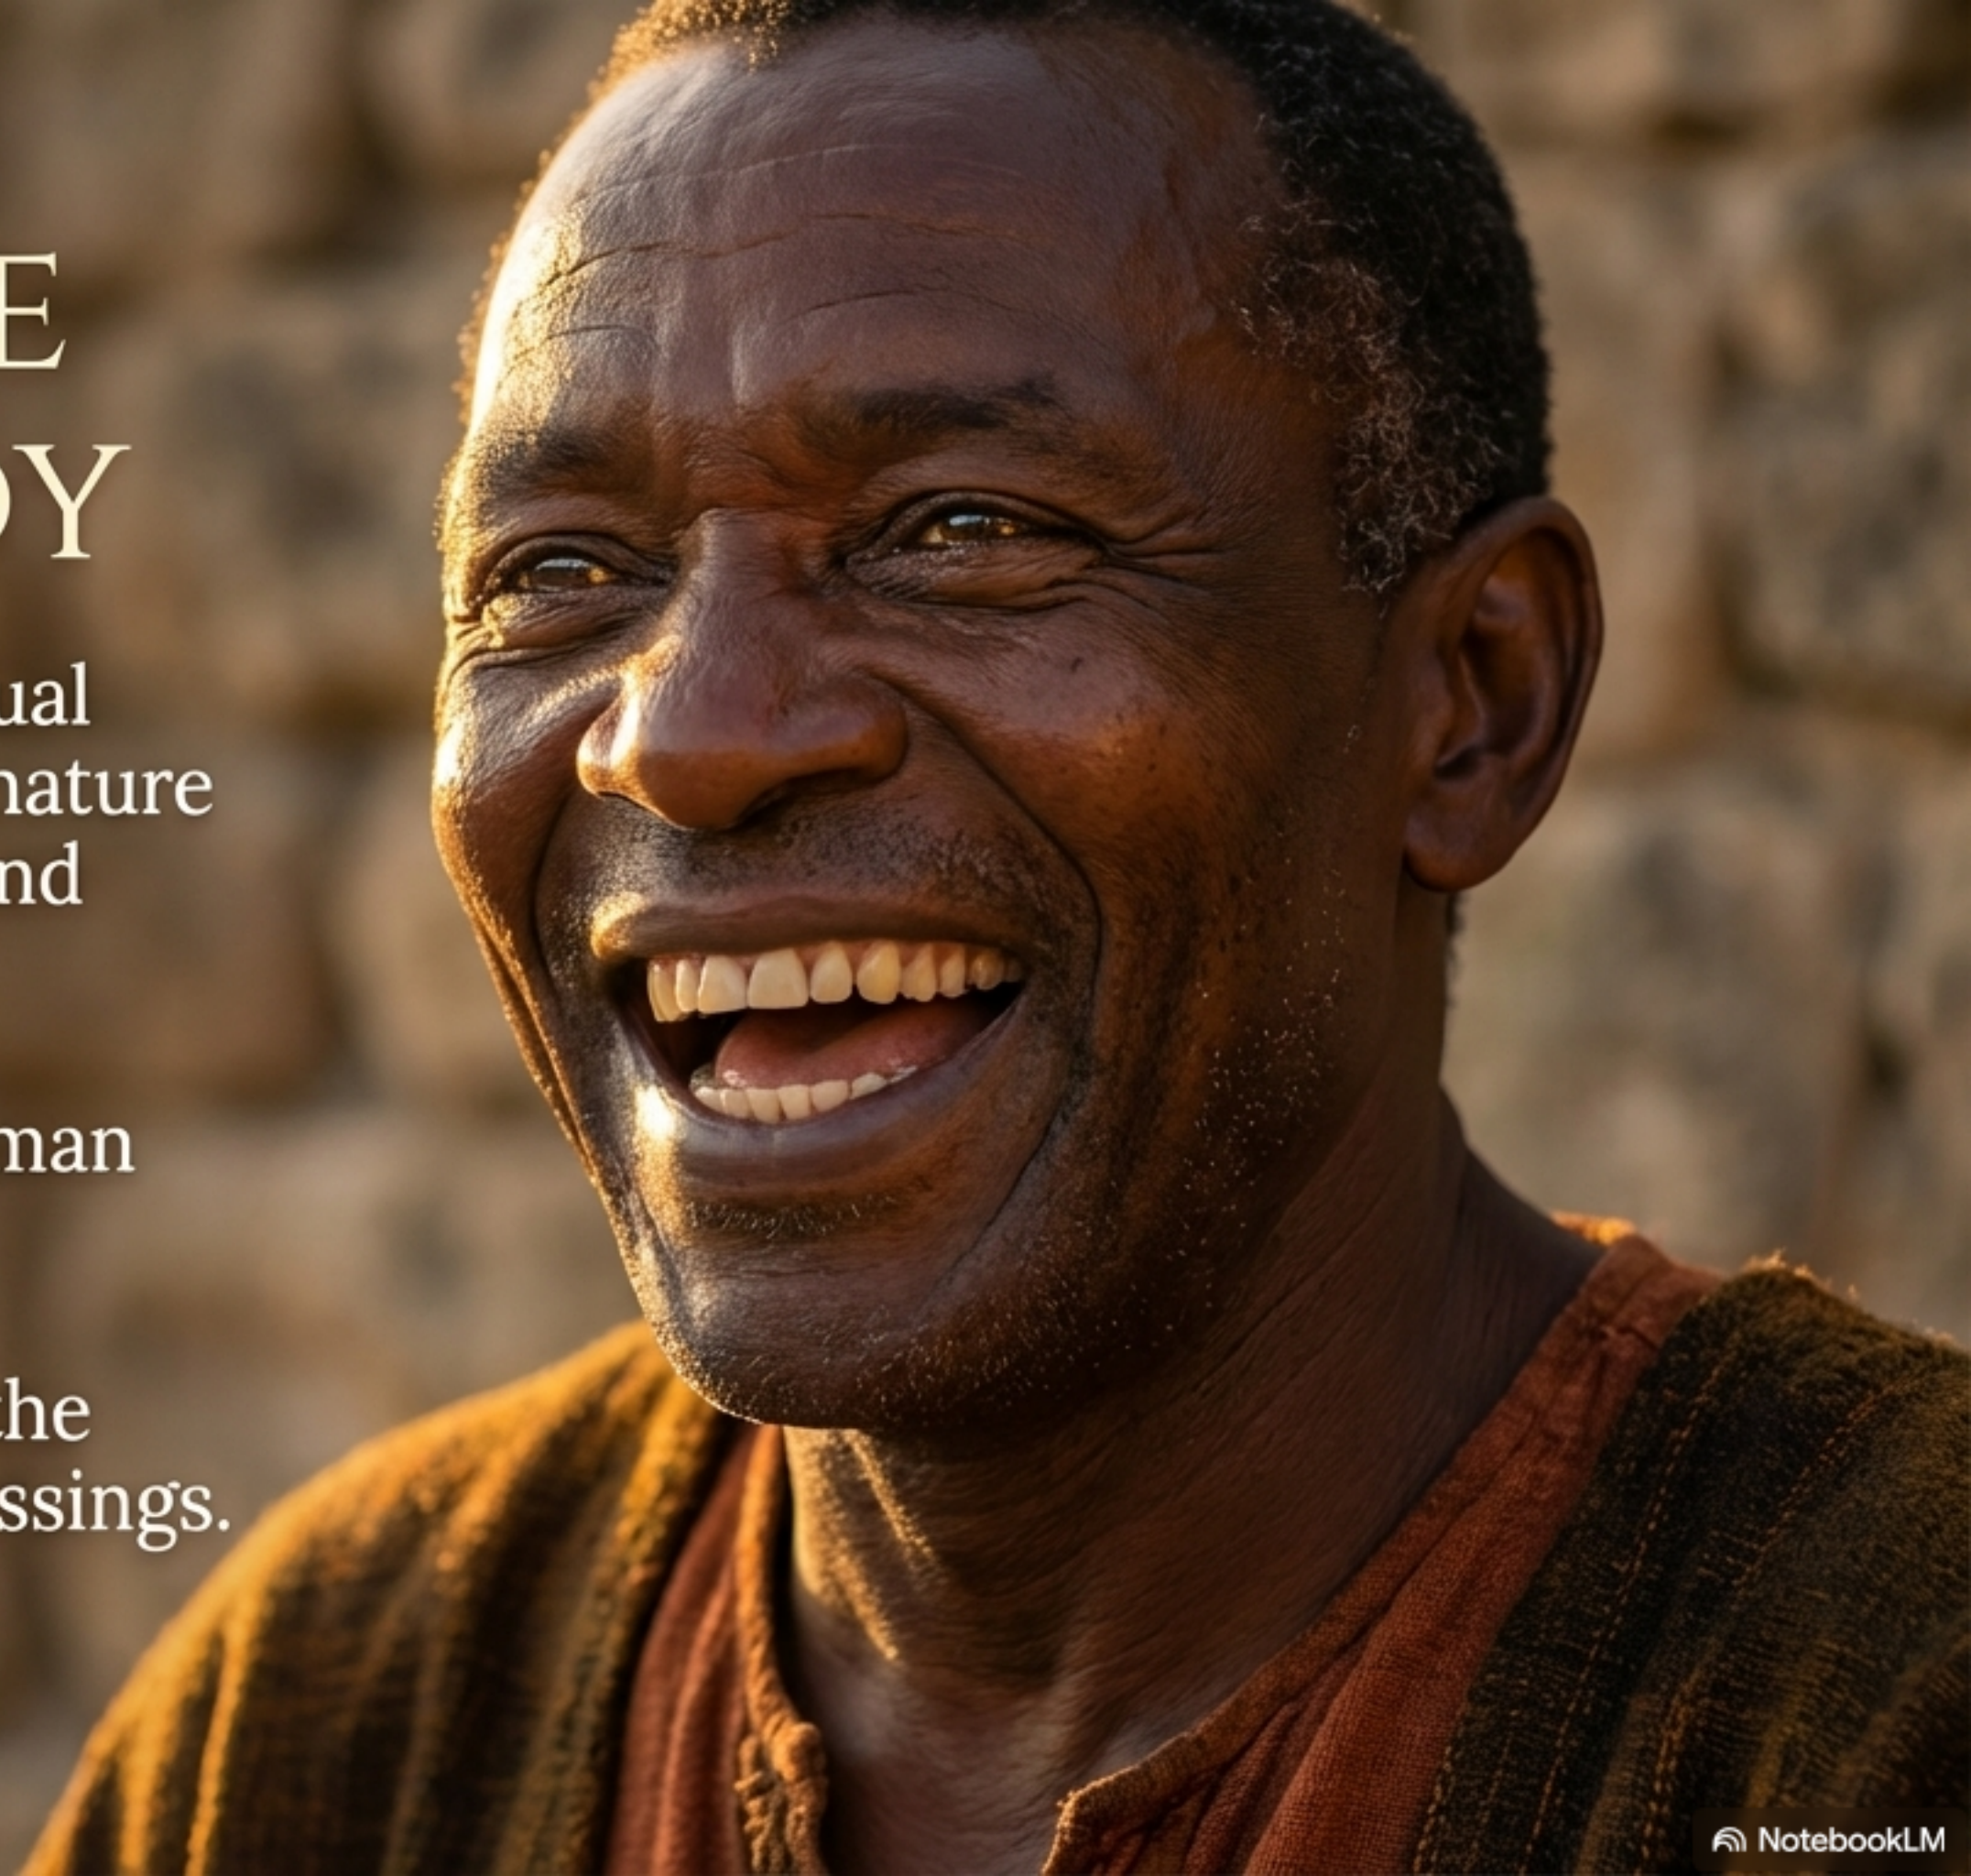

THE ULTIMATE PURPOSE IS JOY

Joy is not produced by an individual alone. It arises when an internal nature and external form are reflected and developed in an object partner.

God created the universe and human beings to share absolute joy.

This joy is fully realized through the fulfillment of the Three Great Blessings.

THE FIRST BLESSING: INDIVIDUAL PERFECTION

“BE FRUITFUL...”

An individual must form a Four Position Foundation within themselves.

The mind and body become completely one through give and take action with God as their center.

Such individuals become the temples of God, acquiring a divine nature and experiencing the Heart of God as their own.

THE SECOND BLESSING: THE GOD-CENTERED FAMILY

“...AND MULTIPLY...”

Men and women, having achieved individual perfection, join in loving oneness to raise children. This establishes the family Four Position Foundation, becoming a substantial object partner that returns infinite joy to God. This family is the pattern for a perfect society.

THE THIRD BLESSING: LOVING DOMINION

“...FILL THE EARTH AND SUBDUE IT;
AND HAVE DOMINION OVER...
EVERY LIVING THING.”

Human beings and the natural
world must share love and beauty
to become completely one.
When ideal human beings nurture
the natural world, the entire
universe becomes a good object
partner giving joy to God.

HUMANITY AS THE MICROCOSM OF THE COSMOS

Prior to creating human beings, God created the natural world by expressing partial reflections of the human internal nature and external form. Therefore, humans contain the sum total of the essences of all things—mineral, plant, and animal. Humanity is the ultimate center of the created universe.

THE CENTER OF UNIVERSAL HARMONY

God created human beings to be the rulers and mediators of the cosmos.

Like a tuning fork, a true person acts as the center of harmony between the physical and spiritual worlds.

When an individual's flesh and spirit unite, they construct a cosmos perfectly responsive to God.

THE INCORPOREAL AND CORPOREAL WORLDS

The universe consists of two substantial realities: the incorporeal (spirit) world and the corporeal (physical) world. The spirit world is the causal subject partner; the physical world is the resultant object partner—a shadow of the former. Together, they form the complete cosmos.

THE PHYSICAL SELF AND VITALITY ELEMENTS

The physical self requires tangible elements (food, water) and intangible elements (air, sunlight) to survive.

Crucially, the conduct of the physical self provides Vitality Elements to the spirit self.

Our mind rejoices at good deeds and feels anxiety at evil because these actions infuse good or evil vitality elements into our eternal spirit.

THE SPIRIT SELF AND LIVING SPIRIT ELEMENTS

The spirit self is an eternal, substantial reality that communicates directly with God.

It grows by receiving Life Elements from God (yang) and Vitality Elements from the physical self (yin).

In return, it imparts Living Spirit Elements to the physical self, bringing deep joy and strength to the physical body.

THE SOIL OF EARTHLY LIFE

The spirit can grow only while it abides in the flesh. The relationship between the physical self and the spirit self is like a tree and its fruit.

Truth must be put into action on earth to generate the vitality elements necessary for the spirit to grow through the stages of Form, Life, and Divine Spirit.

THE COMPASS OF THE SOUL

The human mind consists of the spirit mind and the physical mind.

The Conscience naturally directs us toward what we believe is good.

The Original Mind is deeper—it pursues absolute goodness and works to correct the conscience when it is misguided.

Together, they guide the united self to turn toward God.

THE KINGDOM OF HEAVEN ON EARTH

People of divine spirit, who fully resonate with the spirit world, build the Kingdom of Heaven on earth. Only after it is established on earth can the Kingdom of Heaven in the spirit world be fully realized. The entire universe awaits the people who will restore their original nature and take their place as its true center.
