

The Divine Principle

Discovering the Blueprint for Human History

Why are we at war with ourselves?

Our "original mind" seeks **absolute good**, delighting in the **law of God**.

Yet, we see "**another law at war** with the law of my mind," pulling us toward **paths that bring ruin**.

This **internal contradiction** is the source of **human suffering** and the result of the **human Fall**.

Religions and philosophies offer light, but shadows remain.

Why did a perfect God create beings with the potential to fall?

Why did an omniscient God not prevent the Fall?

Why has history been a relentless cycle of conflict?

The textbooks of truth have become outdated for this age. A new, brighter light is needed.

The Fall was not about a fruit. It was about love.

The "Tree of the Knowledge of Good and Evil" symbolized Eve in her spiritual immaturity.

The "Serpent" was the Archangel Lucifer, who seduced Eve out of jealousy for God's love.

The root of original sin is an illicit, unprincipled sexual relationship that severed humanity's lineage from God and grafted it onto Satan.

Humanity's lineage was stolen, and with it, our world.

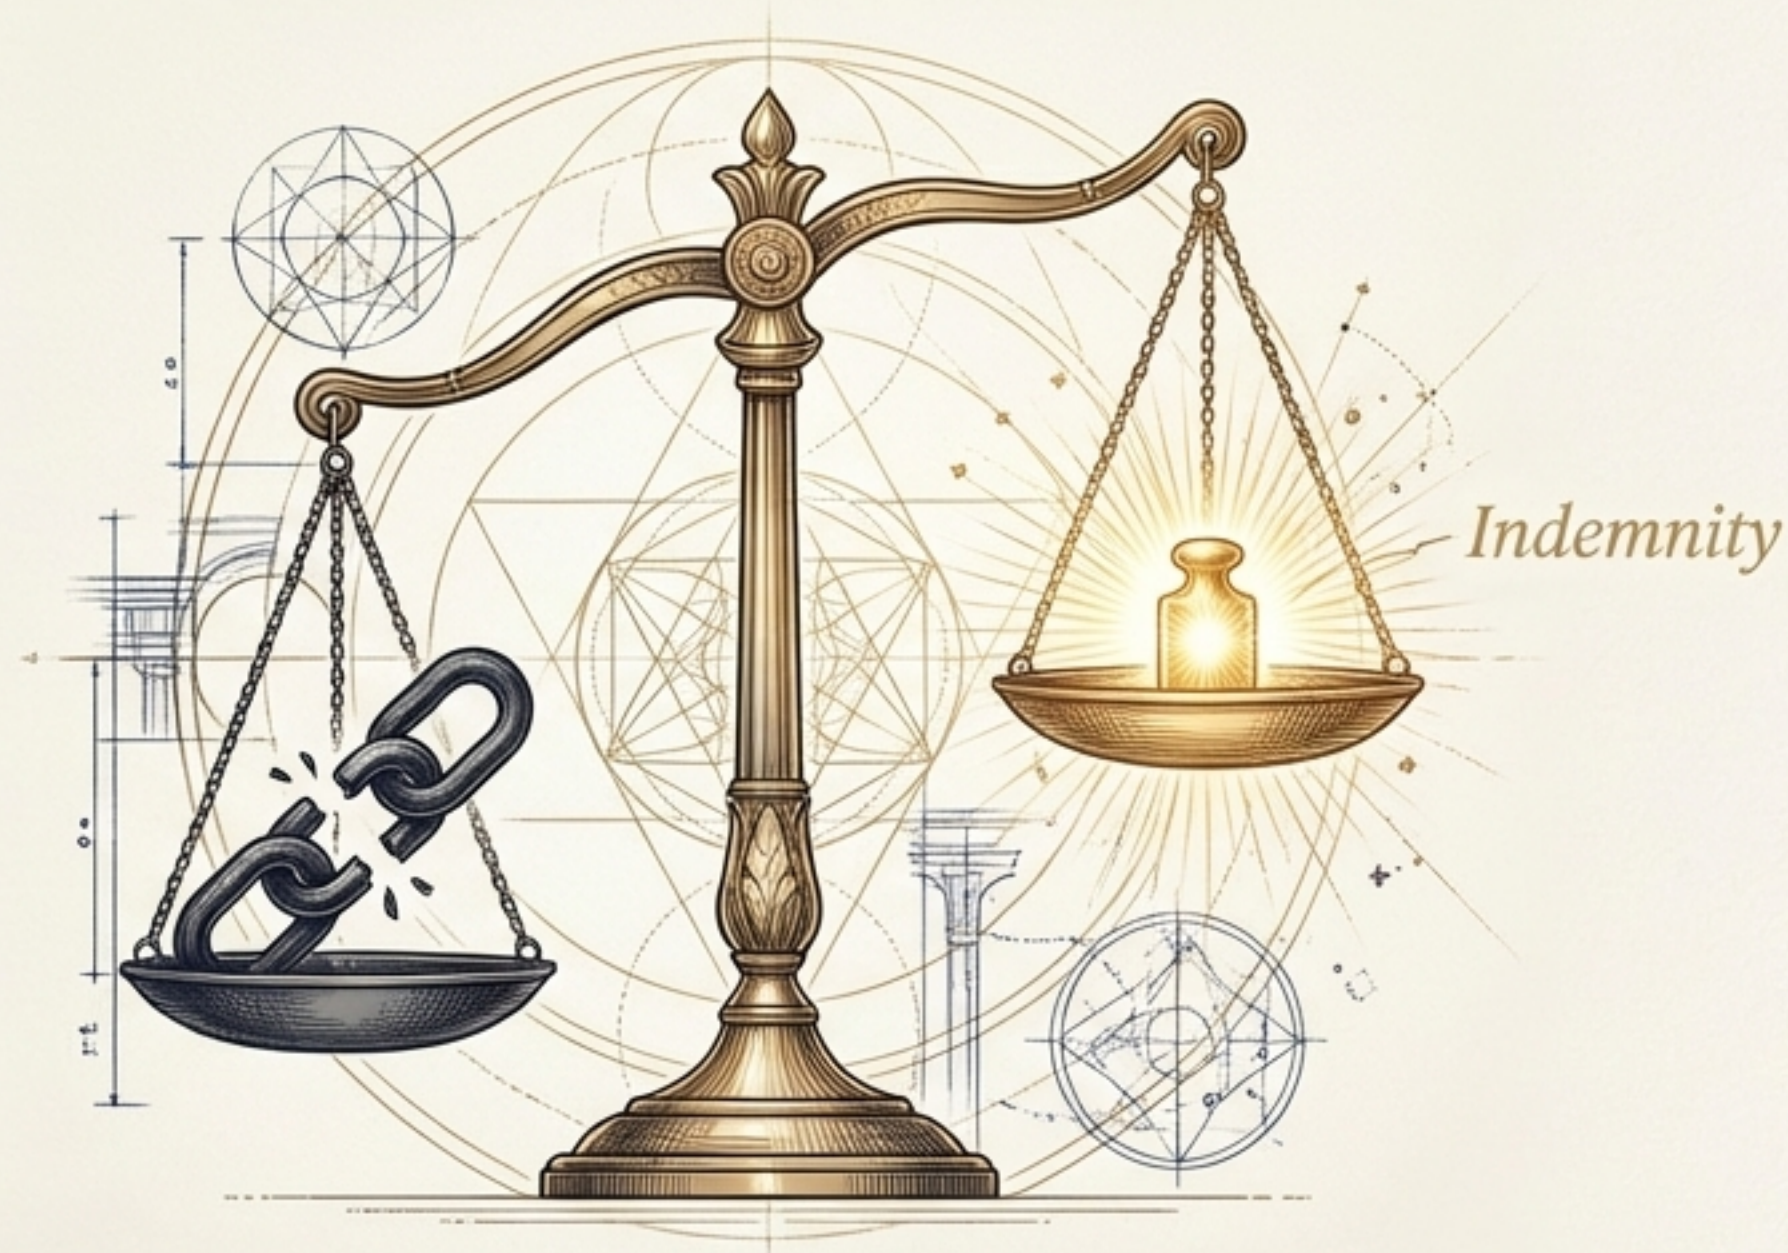

The Fall placed humanity under Satan's sovereignty.

Satan became the "ruler of this world." (John 12:31)

"The whole creation has been groaning in travail" under this false dominion. (Romans 8:22)

History became the story of God's providence to reclaim His children.

To be restored, a condition must be paid.

Restoration through Indemnity: The principle of making a condition to restore a lost position or state.
To separate humanity from Satan's claim, God cannot act unilaterally.
Humanity must fulfill its own portion of responsibility through acts of faith,
creating the condition for God to work.

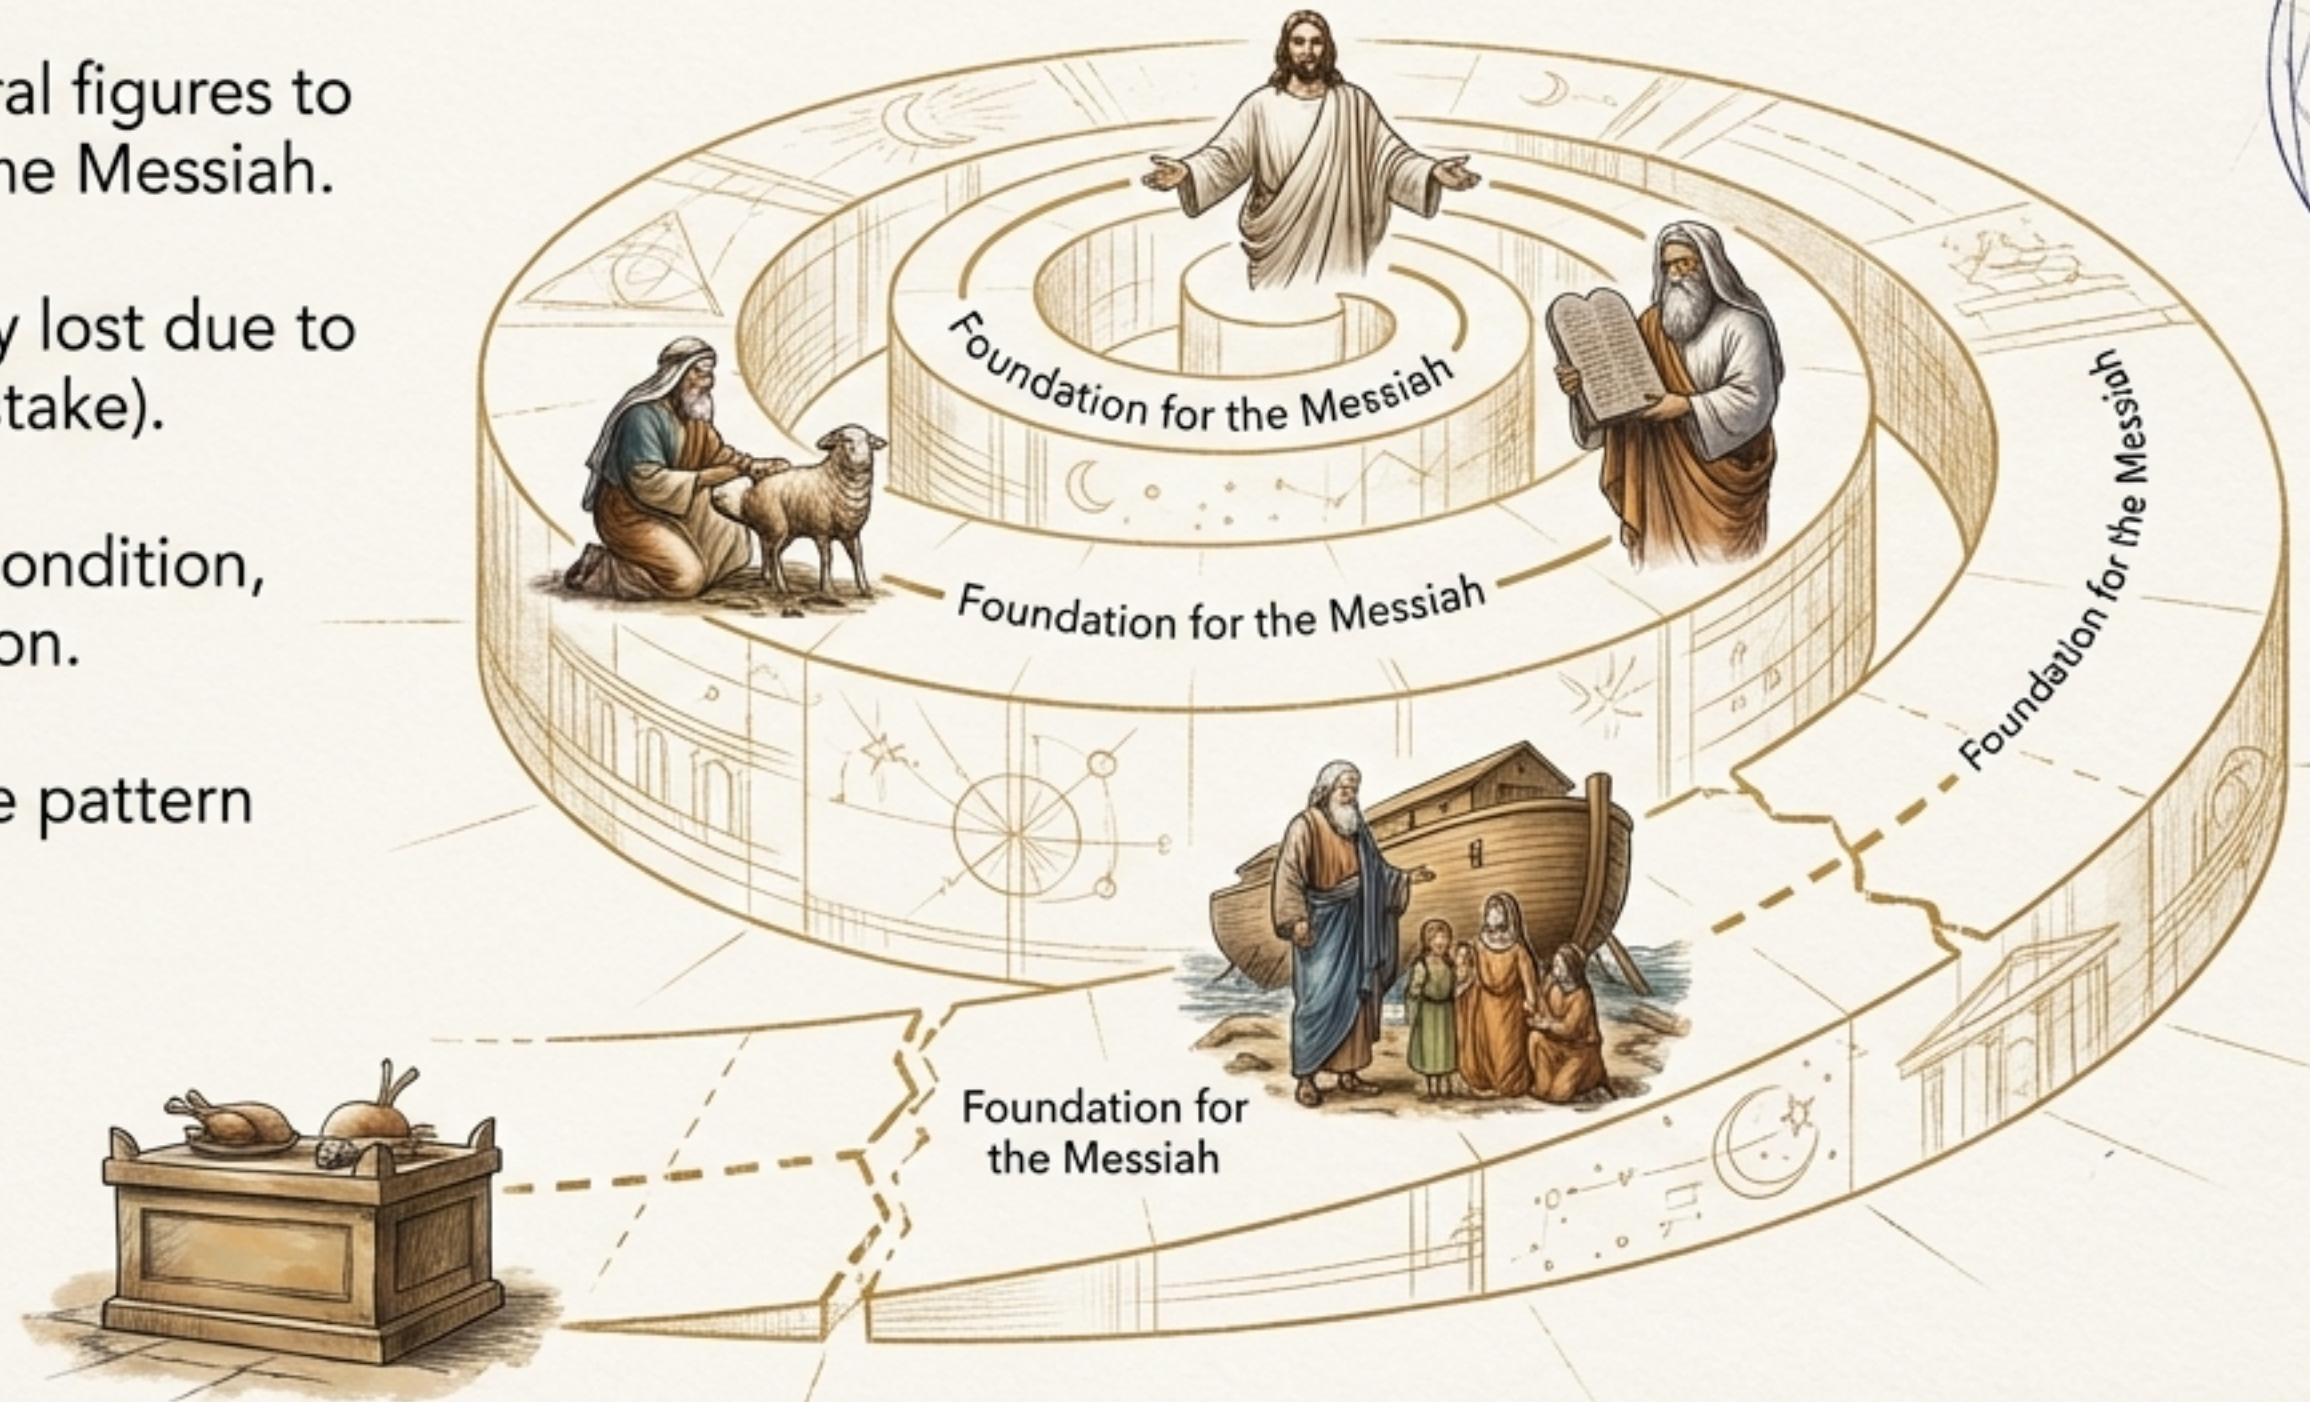

History is not random. It is a spiral of restoration.

God has worked through central figures to lay the foundation to receive the Messiah.

This foundation was repeatedly lost due to human failure (Cain, Ham's mistake).

Abraham's family finally set a condition, establishing a model for a nation.

Moses' national course was the pattern for Jesus' worldwide mission.

Jesus came to build a Kingdom, not just die on a cross.

His primary mission: to be received by Israel, establish a True Family, and build the Kingdom of Heaven on Earth.

His crucifixion was not God's original will.

The disbelief of the people, beginning with John the Baptist's failure to bear witness, forced him onto the path of the cross.

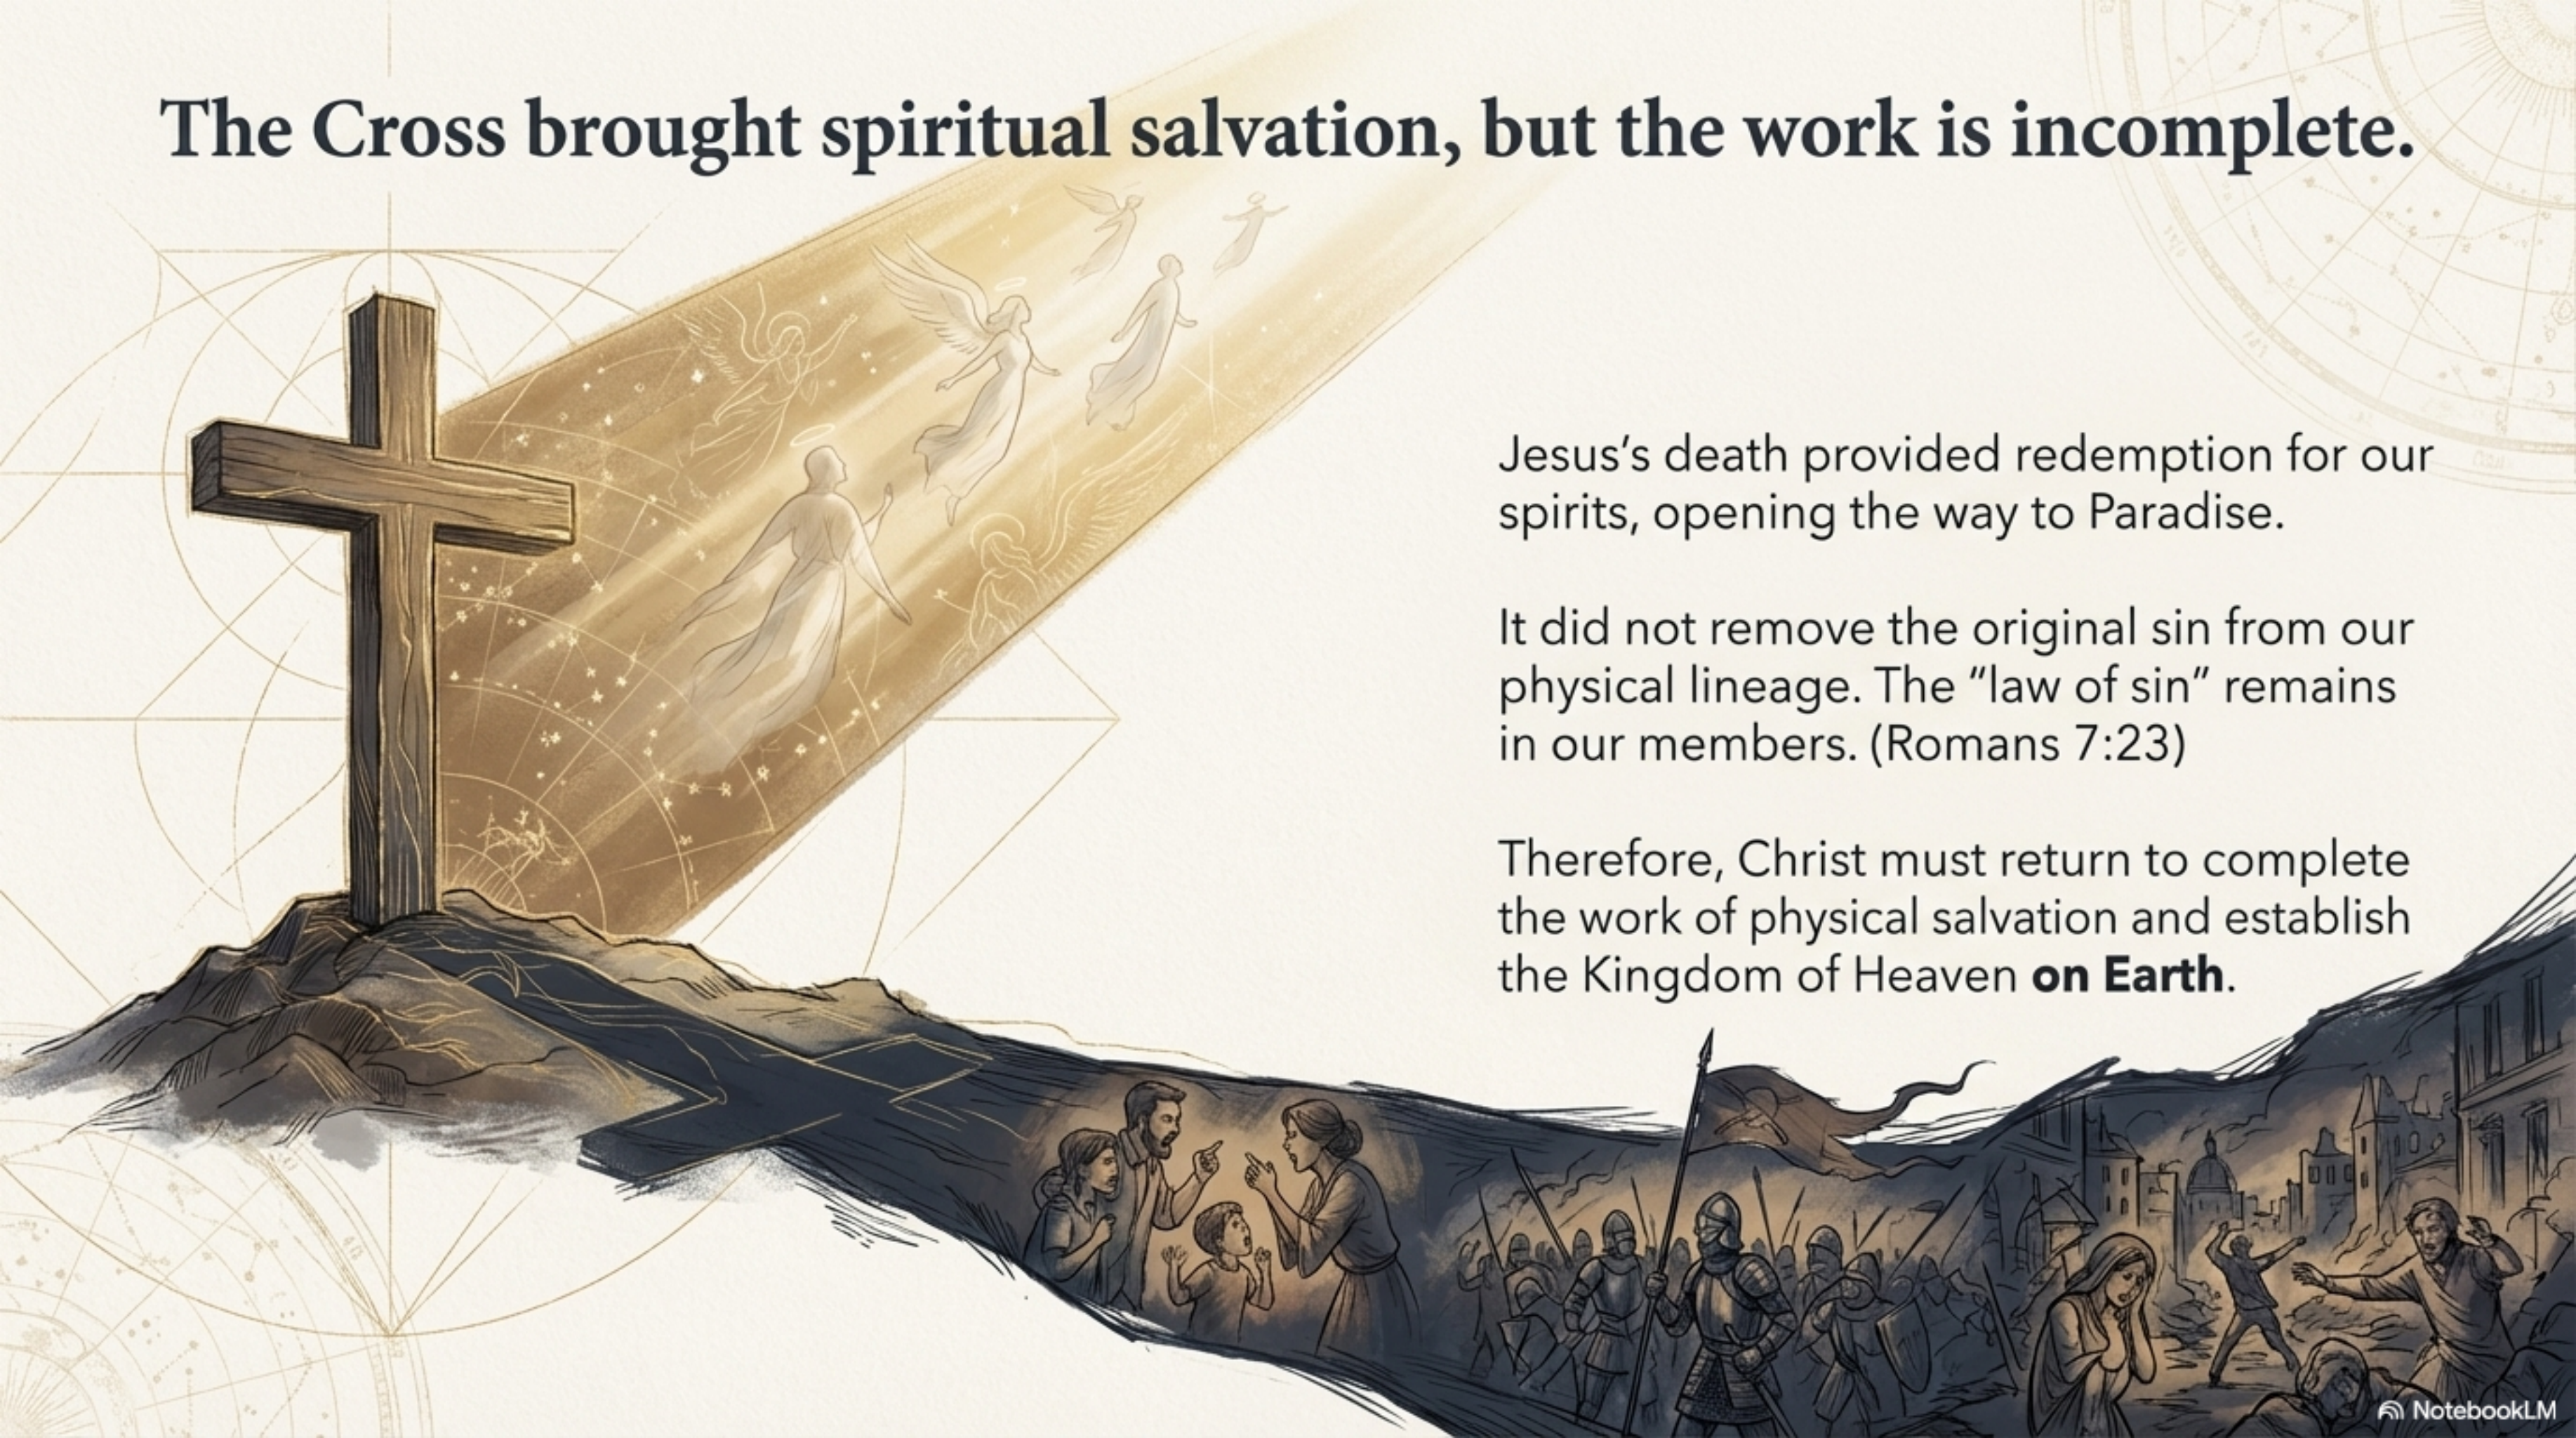

As Jesus lamented: "O Jerusalem, Jerusalem... How often would I have gathered your children... and you would not!" (Matt. 23:37)

The Cross brought spiritual salvation, but the work is incomplete.

Jesus's death provided redemption for our spirits, opening the way to Paradise.

It did not remove the original sin from our physical lineage. The "law of sin" remains in our members. (Romans 7:23)

Therefore, Christ must return to complete the work of physical salvation and establish the Kingdom of Heaven **on Earth**.

The signs are not in the sky, but in the convergence of history.

- The 'Last Days' is the end of the evil world and the transition to God's world.
- It is an era of peak ideological conflict (Democracy vs. Communism).
- It is an era of global integration and unprecedented spiritual hunger.
- History has prepared the stage for the final act of restoration.

“As it was in the days of Noah, so will it be...”

- The First Advent was a man born on earth. The Second Advent will be the same.
- “Coming on the clouds” is a metaphor. “Clouds” represent the reborn, saintly believers who receive him.
- He must come in the flesh to restore both spirit and body and establish a physical kingdom.

From the rising of the sun, a new history begins.

"The kingdom of God will be...given to a nation producing the fruits of it." (Matt. 21:43)

The work of God moves to a nation in the East that has paid unique historical indemnity.

This is the nation prepared to receive the Lord at his return.

A nation that has paid the price.

1. National Indemnity: A history of suffering mirroring that of Israel.

2. God vs. Satan Frontline: The 38th parallel as the focal point of the global conflict between democracy and communism.

3. Culmination of Civilizations: A unique position where all world cultures and religions intersect.

4. Messianic Prophecies: A deep-seated national hope for a Righteous King, as seen in texts like the Chonggamnok.

Uniting Spirit and Truth. Uniting Religion and Science.

The returning Lord comes with a new, complete expression of truth for our time.
This truth will resolve the contradictions between the internal (spiritual) and external (material) worlds.
It is the intellectual and spiritual foundation for a new era of unity.

One World, One Family, Under God.

The fulfillment of God's Three Great Blessings:

- 1. **Individual Perfection:** Oneness of mind and body, centered on God.
- 2. **The Ideal Family:** Multiplying God's lineage through true love.
- 3. **Dominion of Heart:** A world of creativity, cared for in harmony with creation.

This is the Kingdom of Heaven on Earth. This is our journey home.
